

WASHINGTON STATE

Joint Aquatic Resources Permit Application (JARPA) Form^{1,2} [\[help\]](#)

USE BLACK OR BLUE INK TO ENTER ANSWERS IN THE WHITE SPACES BELOW.

US Army Corps
of Engineers®
Seattle District

AGENCY USE ONLY

Date received: 12/29/2021 edoc
Rec'd via SFT Link
Revised
Agency reference #: _____
Tax Parcel #(s): _____

Part 1—Project Identification

1. Project Name (A name for your project that you create. Examples: Smith's Dock or Seabrook Lane Development) [\[help\]](#)

Walsh Trucking

Part 2—Applicant

The person and/or organization responsible for the project. [\[help\]](#)

2a. Name (Last, First, Middle)

Walsh, Bob

2b. Organization (If applicable)

Walsh Trucking

2c. Mailing Address (Street or PO Box)

1650 NW Sundial Rd.

2d. City, State, Zip

Troutdale, OR 97060

2e. Phone (1)

2f. Phone (2)

2g. Fax

2h. E-mail

(503) 667-1912

BobW@walshtruckingco.com

¹Additional forms may be required for the following permits:

- If your project may qualify for Department of the Army authorization through a Regional General Permit (RGP), contact the U.S. Army Corps of Engineers for application information (206) 764-3495.
- Not all cities and counties accept the JARPA for their local Shoreline permits. If you need a Shoreline permit, contact the appropriate city or county government to make sure they accept the JARPA.

²To access an online JARPA form with [\[help\]](#) screens, go to

http://www.epermitting.wa.gov/site/alias_resourcecenter/jarpa_jarpa_form/9984/jarpa_form.aspx.

Part 3—Authorized Agent or Contact

Person authorized to represent the applicant about the project. (Note: Authorized agent(s) must sign 11b of this application.) [\[help\]](#)

3a. Name (Last, First, Middle)			
Naglich, Francis			
3b. Organization (If applicable)			
Ecological Land Services Inc.			
3c. Mailing Address (Street or PO Box)			
1157 3 rd Ave Suite 220 A			
3d. City, State, Zip			
Longview WA 98632			
3e. Phone (1)	3f. Phone (2)	3g. Fax	3h. E-mail
(360) 578-1371			

Part 4—Property Owner(s)

Contact information for people or organizations owning the property where the project will occur. Consider both **upland and aquatic** ownership because the upland owners may not own the adjacent aquatic land. [\[help\]](#)

- ☒ Same as applicant. (Skip to Part 5.)
- ☐ Repair or maintenance activities on existing rights-of-way or easements. (Skip to Part 5.)
- ☐ There are multiple upland property owners. Complete the section below and fill out [JARPA Attachment A](#) for each additional property owner.
- ☐ Your project is on Department of Natural Resources (DNR)-managed aquatic lands. If you don't know, contact the DNR at (360) 902-1100 to determine aquatic land ownership. If yes, complete [JARPA Attachment E](#) to apply for the Aquatic Use Authorization.

4a. Name (Last, First, Middle)			
4b. Organization (If applicable)			
4c. Mailing Address (Street or PO Box)			
4d. City, State, Zip			
4e. Phone (1)	4f. Phone (2)	4g. Fax	4h. E-mail

Part 5–Project Location(s)

Identifying information about the property or properties where the project will occur. [\[help\]](#)

- ☐ There are multiple project locations (e.g. linear projects). Complete the section below and use [JARPA Attachment B](#) for each additional project location.

5a. Indicate the type of ownership of the property. (Check all that apply.) [help]			
<input checked="" type="checkbox"/> Private			
<input type="checkbox"/> Federal			
<input type="checkbox"/> Publicly owned (state, county, city, special districts like schools, ports, etc.)			
<input type="checkbox"/> Tribal			
<input type="checkbox"/> Department of Natural Resources (DNR) – managed aquatic lands (Complete JARPA Attachment E)			
5b. Street Address (Cannot be a PO Box. If there is no address, provide other location information in 5p.) [help]			
Not yet assigned			
5c. City, State, Zip (If the project is not in a city or town, provide the name of the nearest city or town.) [help]			
Napavine WA 98565			
5d. County [help]			
Lewis			
5e. Provide the section, township, and range for the project location. [help]			
¼ Section	Section	Township	Range
	25	13N	2W
5f. Provide the latitude and longitude of the project location. [help]			
<ul style="list-style-type: none">Example: 47.03922 N lat. / -122.89142 W long. (Use decimal degrees - NAD 83)			
46.58320 / -122.88465			
5g. List the tax parcel number(s) for the project location. [help]			
<ul style="list-style-type: none">The local county assessor's office can provide this information.			
018136001001			
5h. Contact information for all adjoining property owners. (If you need more space, use JARPA Attachment C.) [help]			
Name	Mailing Address	Tax Parcel # (if known)	
BLANKENSHIP, STEVE W	PO BOX 1446	018136004000	
	CHEHALIS, WA 98532		
JORGENSEN TIMBER LLC	PO BOX 1503	018136001002	
	CHEHALIS, WA 98532		

5i. List all wetlands on or adjacent to the project location. [help]
Five wetlands are on the parcel, identified as Wetlands A, B, C, D, and E. An unnamed offsite wetland is south.
5j. List all waterbodies (other than wetlands) on or adjacent to the project location. [help]
An unnamed tributary to the South Fork Newaukum River, a man-made drainage ditch, and a man-made pond are south of the study area.
5k. Is any part of the project area within a 100-year floodplain? [help]
<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> Don't know FEMA Zone X "Area of Minimal Flooding"
5l. Briefly describe the vegetation and habitat conditions on the property. [help]
Topography is relatively flat sloping gradually from north-to-south toward an unnamed tributary of the South Fork Newaukum River. The tributary itself is just offsite to the south. The study area is an open field, predominantly herbaceous vegetation, with remnants of woody vegetation in the northwest. Five wetlands are in the study area, identified in this report as Wetlands A, B, C, D, and E. There are scattered trees on the perimeter: a few on the parcel's north boundary, a few on the west boundary, and some rooted along the riparian corridor of the unnamed tributary.
5m. Describe how the property is currently used. [help]
The entire parcel, including its wetlands, is currently maintained by mowing and was historically managed as pasture.
5n. Describe how the adjacent properties are currently used. [help]
The study area is situated between I-5 to the west, Forest Napavine Road to the north, M&M Transport to the east, and timber lands managed by Jorgensen Timber LLC to the south.
5o. Describe the structures (above and below ground) on the property, including their purpose(s) and current condition. [help]
There are no structures in the study area.
5p. Provide driving directions from the closest highway to the project location, and attach a map. [help]
I-5 to Exit 71, east on Highway 508 approximately 0.10-mile, the project location is on the south side of the Hwy 508, adjacent to M&M Transport Inc.

Part 6—Project Description

6a. Briefly summarize the overall project. You can provide more detail in 6b. [\[help\]](#)

Walsh Trucking is proposing a new modular administration building approximately 30 x 60 and a new machine shop building with associated car parking, trailer parking, and stormwater facilities.

6b. Describe the purpose of the project and why you want or need to perform it. [\[help\]](#)

Walsh Trucking proposes to develop a trucking center as part of their northwest area operations. Walsh operates a trucking network hauling wood chips for the forest products industry and municipal waste intended for landfill operations in Eastern Washington. The Napavine site offers ideal access to Interstate 5 north-south and State Highway 12 east-west. Site development will provide parking and maintenance/repair for all of Walsh's trucks working in Washington and points beyond. Site selection is beneficial in reducing fuel consumption, benefiting air quality, and reducing greenhouse gas emissions. A current Walsh trucking center is in the Puget Sound region; this center will be vacated once the proposed center is completed.

6c. Indicate the project category. (Check all that apply) [\[help\]](#)

- ☒ Commercial
 ☐ Residential
 ☐ Institutional
 ☐ Transportation
 ☐ Recreational
☐ Maintenance
 ☐ Environmental Enhancement

6d. Indicate the major elements of your project. (Check all that apply) [\[help\]](#)

☒ Other: Fill and grading.

6e. Describe how you plan to construct each project element checked in 6d. Include specific construction methods and equipment to be used. [\[help\]](#)

- Identify where each element will occur in relation to the nearest waterbody.
- Indicate which activities are within the 100-year floodplain.

The development footprint will be flagged and surveyed, and construction and silt control fencing will be installed around the perimeter of the site prior to **land clearing**. **Grading** will involve stripping approximately 0.5 feet of topsoil to allow for site construction and to avoid site settlement. Stripped material will be used on-site for landscaping areas around the facility; the remainder will be moved off-site to an approved soil recycling or disposal area. Importing structural **fill** is estimated at 10,000 cubic yards, an average of 2 feet depth of base fill that will support parking areas and buildings. A **stormwater facility** will be constructed at the southwest corner of the site., including excavation for the pond, grading to achieve intended contours, and topsoil placement for plantings. An **outfall structure** for the stormwater facility will be installed in an upland area that slopes toward the off-site stream. It will be armored with quarry spalls and planted with shrubs to prevent erosion. **Retaining walls** will be used to minimize fill slopes next to wetlands to minimize wetland fill. A new **culvert** is anticipated to be installed in the road ditch along SR 508 where the site entrance apron will be constructed. The culvert will convey runoff from SR 508 and extend the existing culvert under the driveway of the adjacent M&M trucking facility.

6f. What are the anticipated start and end dates for project construction? (Month/Year) [\[help\]](#)

- If the project will be constructed in phases or stages, use [JARPA Attachment D](#) to list the start and end dates of each phase or stage.

Start Date: 2022

End Date: 2023

☐ See JARPA Attachment D

6g. Fair market value of the project, including materials, labor, machine rentals, etc. [\[help\]](#)

\$2,500,000.00

6h. Will any portion of the project receive federal funding? [\[help\]](#)

- If **yes**, list each agency providing funds.

☐ Yes ☒ No ☐ Don't know

Part 7–Wetlands: Impacts and Mitigation

☐ Check here if there are wetlands or wetland buffers on or adjacent to the project area.

(If there are none, skip to Part 8.) [\[help\]](#)

7a. Describe how the project has been designed to avoid and minimize adverse impacts to wetlands. [\[help\]](#)

☐ Not applicable

The first proposal submitted for agency review included 0.498-acre direct wetland impact and 0.326-acre indirect wetland impact. At the Corps request, the applicant worked with ELS to redesign portions of the project and further reduce direct wetland impacts. This revised proposal includes 0.332-acre direct wetland impact, an additional reduction of 0.166-acre in direct wetland impacts. The additional reduction is accomplished by modifying the entrance to the proposed trucking facility, reducing fill on the subject parcel, and making more use of the existing entrance at M&M trucking.

Wetlands are generally positioned in the northern portion of the study area (Wetlands A and E) and southern portion (Wetlands B, C, D) with a band of unencumbered ground near the study area's center. From a development perspective, all five wetlands are relatively equidistant from one another making it difficult to entirely avoid direct wetland impacts and retain a cohesive development layout. Consequently, not all impacts are avoided. Wetland A is adjacent to an existing entrance to M&M Trucking transfer facility and occupies a portion of the Washington Department of Transportation (WDOT) right-of-way fronting Highway 508. As mentioned previously, a portion of Wetland A must be impacted to provide entryway for the proposed

development. This impact is reduced in the current proposal by using more of the existing entry serving the adjacent M&M facility. Wetlands B and E, and a portion of Wetland D will also be permanently filled to complete the development footprint. The impacts are unchanged from the original proposal; however, a modification to the storm pond is included in this submission to avoid impacts to the archaeological site identified by ASCC (Report No. 2185).

7b. Will the project impact wetlands? [\[help\]](#)

☒ Yes ☐ No ☐ Don't know

7c. Will the project impact wetland buffers? [\[help\]](#)

☒ Yes ☐ No ☐ Don't know

7d. Has a wetland delineation report been prepared? [\[help\]](#)

- **If Yes**, submit the report, including data sheets, with the JARPA package.

☒ Yes ☐ No

7e. Have the wetlands been rated using the Western Washington or Eastern Washington Wetland Rating System? [\[help\]](#)

- **If Yes**, submit the wetland rating forms and figures with the JARPA package.

☒ Yes ☐ No ☐ Don't know

7f. Have you prepared a mitigation plan to compensate for any adverse impacts to wetlands? [\[help\]](#)

- **If Yes**, submit the plan with the JARPA package and answer 7g.
- **If No, or Not applicable**, explain below why a mitigation plan should not be required.

☒ Yes ☐ No ☐ Don't know

7g. Summarize what the mitigation plan is meant to accomplish and describe how a watershed approach was used to design the plan. [\[help\]](#)

The wetlands proposed for impact are in the service area for the CBWMB and the project is approximately 12.5 miles south of the Bank. The Bank's goal is to re-establish high quality wetland and associated wildlife habitat to lift wetland functions and values in the Upper Chehalis watershed, including the Newaukum River sub-shed where the project is located. The Bank site is in a riverine landscape and its overall design provides a significant ecological benefit to a large portion of the watershed.

CBWMB was designed to increase the function of two adjoining mitigation sites that also provide high quality functions for this watershed. CBWMB provides 176.97 acres of rehabilitated, enhanced, and preserved riverine flow-through wetland with palustrine forest, scrub/shrub, and emergent habitat types. The post-construction Bank site will consist of a riverine flow-through, forested, scrub-shrub, and emergent wetland system with relocated tributary streams that connect to a fish-bearing, perennial stream. A variety of water regimes, vegetation interspersions, and habitat features provide diverse habitat opportunities for wildlife. The reestablished wetlands will improve water quality, help prevent downstream erosion, recharge groundwater to supplement low summer flows, and keep summer water temperatures cooler. The anticipated functional lift post-construction includes an increase in functions related to water quantity and habitat. The purpose for using bank credits as mitigation for the proposed impacts is to support the above-described goals of the bank and improve the existing hydrology, water quality, and habitat functions in the watershed. These improvements will accomplish no-net-loss of wetland functions and values when the project is complete.

7h. Use the table below to list the type and rating of each wetland impacted, the extent and duration of the impact, and the type and amount of mitigation proposed. Or if you are submitting a mitigation plan with a similar table, you can state (below) where we can find this information in the plan. [\[help\]](#)

Activity	Wetland Name ¹	Wetland category ²	Impact area	Duration of impact ³	Proposed mitigation ⁴	Wetland mitigation area
Fill	A	Depressional, Cat III	0.253 ac	Permanent	B	0.253 ac
Indirect impact	A	Depressional, Cat III	0.226 ac	Permanent	B	0.113 ac
Fill	B	Depressional, Cat III	0.031 ac	Permanent	B	0.031 ac
Indirect impact	C	Depressional, Cat III	0.242 ac	Permanent	B	0.121 ac
Fill	D	Depressional, Cat III	0.014 ac	Permanent	B	0.014 ac
Indirect impact	D	Depressional, Cat III	0.022 ac	Permanent	B	0.011 ac
Fill	E	Depressional, Cat IV	0.034 ac	Permanent	B	0.029 ac

¹ If no official name for the wetland exists, create a unique name (such as "Wetland 1"). The name should be consistent with other project documents, such as a wetland delineation report.

² Ecology wetland category based on current Western Washington or Eastern Washington Wetland Rating System. Provide the wetland rating forms with the JARPA package.

³ Indicate the days, months or years the wetland will be measurably impacted by the activity. Enter "permanent" if applicable.

⁴ Creation (C), Re-establishment/Rehabilitation (R), Enhancement (E), Preservation (P), Mitigation Bank/In-lieu fee (B)

Page number(s) for similar information in the mitigation plan, if available: _____

7i. For all filling activities identified in 7h, describe the source and nature of the fill material, the amount in cubic yards that will be used, and how and where it will be placed into the wetland. [\[help\]](#)

Source of fill material is anticipated to be from a local quarry and will include ballast rock or pit run suitable for foundation material under the building and driving and parking surfaces. Estimated cubic yards is 10,000. The material will be imported by dump truck, spread with a bulldozer or grader and compacted for the application of top surface materials, either gravel or asphalt.

7j. For all excavating activities identified in 7h, describe the excavation method, type and amount of material in cubic yards you will remove, and where the material will be disposed. [\[help\]](#)

Stripping topsoil to prepare the site is not quantified. Excavation for the stormwater facility is estimated at 2,167 cubic yards.

Part 8–Waterbodies (other than wetlands): Impacts and Mitigation

In Part 8, “waterbodies” refers to non-wetland waterbodies. (See Part 7 for information related to wetlands.) [\[help\]](#)

☒ Check here if there are waterbodies on or adjacent to the project area. (If there are none, skip to Part 9.)

8a. Describe how the project is designed to avoid and minimize adverse impacts to the aquatic environment. [\[help\]](#)

☒ Not applicable

8b. Will your project impact a waterbody or the area around a waterbody? [\[help\]](#)

☐ Yes ☒ No

8c. Have you prepared a mitigation plan to compensate for the project’s adverse impacts to non-wetland waterbodies? [\[help\]](#)

- If **Yes**, submit the plan with the JARPA package and answer 8d.
- If **No, or Not applicable**, explain below why a mitigation plan should not be required.

☐ Yes ☒ No ☐ Don’t know

8d. Summarize what the mitigation plan is meant to accomplish. Describe how a watershed approach was used to design the plan.

- If you already completed 7g you do not need to restate your answer here. [\[help\]](#)

8e. Summarize impact(s) to each waterbody in the table below. [\[help\]](#)

Activity (clear, dredge, fill, pile drive, etc.)	Waterbody name ¹	Impact location ²	Duration of impact ³	Amount of material (cubic yards) to be placed in or removed from waterbody	Area (sq. ft. or linear ft.) of waterbody directly affected

¹ If no official name for the waterbody exists, create a unique name (such as "Stream 1") The name should be consistent with other documents provided.

² Indicate whether the impact will occur in or adjacent to the waterbody. If adjacent, provide the distance between the impact and the waterbody and indicate whether the impact will occur within the 100-year flood plain.

³ Indicate the days, months or years the waterbody will be measurably impacted by the work. Enter "permanent" if applicable.

8f. For all activities identified in 8e, describe the source and nature of the fill material, amount (in cubic yards) you will use, and how and where it will be placed into the waterbody. [\[help\]](#)

8g. For all excavating or dredging activities identified in 8e, describe the method for excavating or dredging, type and amount of material you will remove, and where the material will be disposed. [\[help\]](#)

Part 9—Additional Information

Any additional information you can provide helps the reviewer(s) understand your project. Complete as much of this section as you can. It is ok if you cannot answer a question.

9a. If you have already worked with any government agencies on this project, list them below. [help]			
Agency Name	Contact Name	Phone	Most Recent Date of Contact
City of Napavine	Bryan Morris	(360) 262-9344	June 2021
Ecology	Zach Meyer	(360) 407-6167	May 2021
Corps	Evan Carnes	(360) 553-6978	December 2021
9b. Are any of the wetlands or waterbodies identified in Part 7 or Part 8 of this JARPA on the Washington Department of Ecology's 303(d) List? [help] <ul style="list-style-type: none"> If Yes, list the parameter(s) below. If you don't know, use Washington Department of Ecology's Water Quality Assessment tools at: https://ecology.wa.gov/Water-Shorelines/Water-quality/Water-improvement/Assessment-of-state-waters-303d. 			
<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No

9g. What is the Washington Department of Natural Resources Water Type? [\[help\]](#)

- Go to <http://www.dnr.wa.gov/forest-practices-water-typing> for the Forest Practices Water Typing System.

☐ Shoreline ☒ Fish ☐ Non-Fish Perennial ☐ Non-Fish Seasonal

9h. Will this project be designed to meet the Washington Department of Ecology's most current stormwater manual? [\[help\]](#)

- If **No**, provide the name of the manual your project is designed to meet.

☒ Yes ☐ No

Name of manual: _____

9i. Does the project site have known contaminated sediment? [\[help\]](#)

- If **Yes**, please describe below.

☐ Yes ☒ No

9j. If you know what the property was used for in the past, describe below. [\[help\]](#)

The study area has been managed for agricultural at least since 1951, the oldest aerial image available.

9k. Has a cultural resource (archaeological) survey been performed on the project area? [\[help\]](#)

- If **Yes**, attach it to your JARPA package.

☒ Yes ☐ No

9l. Name each species listed under the federal Endangered Species Act that occurs in the vicinity of the project area or might be affected by the proposed work. [\[help\]](#)

9m. Name each species or habitat on the Washington Department of Fish and Wildlife's Priority Habitats and Species List that might be affected by the proposed work. [\[help\]](#)

Part 10–SEPA Compliance and Permits

Use the resources and checklist below to identify the permits you are applying for.

- Online Project Questionnaire at <http://apps.oria.wa.gov/opas/>.
- Governor's Office for Regulatory Innovation and Assistance at (800) 917-0043 or help@oria.wa.gov.
- For a list of addresses to send your JARPA to, click on [agency addresses for completed JARPA](#).

10a. Compliance with the State Environmental Policy Act (SEPA). (Check all that apply.) [\[help\]](#)

- For more information about SEPA, go to <https://ecology.wa.gov/regulations-permits/SEPA-environmental-review>.

☐ A copy of the SEPA determination or letter of exemption is included with this application.

☒ A SEPA determination is pending with City of Napavine (lead agency). The expected decision date is Summer 2021.

☐ I am applying for a Fish Habitat Enhancement Exemption. (Check the box below in 10b.) [\[help\]](#)

☐ This project is exempt (choose type of exemption below).

☐ Categorical Exemption. Under what section of the SEPA administrative code (WAC) is it exempt?

☐ Other: _____

☐ SEPA is pre-empted by federal law.

10b. Indicate the permits you are applying for. (Check all that apply.) [\[help\]](#)

LOCAL GOVERNMENT

Local Government Shoreline permits:

- ☐ Substantial Development ☐ Conditional Use ☐ Variance
☐ Shoreline Exemption Type (explain): _____

Other City/County permits:

- ☐ Floodplain Development Permit ☒ Critical Areas Ordinance

STATE GOVERNMENT

Washington Department of Fish and Wildlife:

- ☐ Hydraulic Project Approval (HPA) ☐ Fish Habitat Enhancement Exemption – [Attach Exemption Form](#)

Washington Department of Natural Resources:

- ☐ Aquatic Use Authorization
Complete [JARPA Attachment E](#) and submit a check for \$25 payable to the Washington Department of Natural Resources.
Do not send cash.

Washington Department of Ecology:

- ☒ Section 401 Water Quality Certification ☐ Non-Federally Regulated Waters

FEDERAL AND TRIBAL GOVERNMENT

United States Department of the Army (U.S. Army Corps of Engineers):

- ☒ Section 404 (discharges into waters of the U.S.) ☐ Section 10 (work in navigable waters)

United States Coast Guard:

For projects or bridges over waters of the United States, contact the U.S. Coast Guard at: d13-pf-d13bridges@uscg.mil

- ☐ Bridge Permit ☐ Private Aids to Navigation (or other non-bridge permits)

United States Environmental Protection Agency:

- ☐ Section 401 Water Quality Certification (discharges into waters of the U.S.) on tribal lands where tribes do not have treatment as a state (TAS)

Tribal Permits: (Check with the tribe to see if there are other tribal permits, e.g., Tribal Environmental Protection Act, Shoreline Permits, Hydraulic Project Permits, or other in addition to CWA Section 401 WQC)

- ☐ Section 401 Water Quality Certification (discharges into waters of the U.S.) where the tribe has treatment as a state (TAS).

Part 11—Authorizing Signatures

Signatures are required before submitting the JARPA package. The JARPA package includes the JARPA form, project plans, photos, etc. [\[help\]](#)

11a. Applicant Signature (required) [\[help\]](#)

I certify that to the best of my knowledge and belief, the information provided in this application is true, complete, and accurate. I also certify that I have the authority to carry out the proposed activities, and I agree to start work only after I have received all necessary permits.

I hereby authorize the agent named in Part 3 of this application to act on my behalf in matters related to this application. _____ (initial)

By initialing here, I state that I have the authority to grant access to the property. I also give my consent to the permitting agencies entering the property where the project is located to inspect the project site or any work related to the project. _____ (initial)

Applicant Printed Name

Applicant Signature

Date

11b. Authorized Agent Signature [\[help\]](#)

I certify that to the best of my knowledge and belief, the information provided in this application is true, complete, and accurate. I also certify that I have the authority to carry out the proposed activities and I agree to start work only after all necessary permits have been issued.

Authorized Agent Printed Name

Authorized Agent Signature

Date

11c. Property Owner Signature (if not applicant) [\[help\]](#)

Not required if project is on existing rights-of-way or easements (provide copy of easement with JARPA).

I consent to the permitting agencies entering the property where the project is located to inspect the project site or any work. These inspections shall occur at reasonable times and, if practical, with prior notice to the landowner.

Property Owner Printed Name

Property Owner Signature

Date

18 U.S.C §1001 provides that: Whoever, in any manner within the jurisdiction of any department or agency of the United States knowingly falsifies, conceals, or covers up by any trick, scheme, or device a material fact or makes any false, fictitious, or fraudulent statements or representations or makes or uses any false writing or document knowing same to contain any false, fictitious, or fraudulent statement or entry, shall be fined not more than \$10,000 or imprisoned not more than 5 years or both.
