RE: Coastal Zone Consistency for Corps Reference No. **201900450**,
Northwest Shellfish Hjelm Lease, Thurston County, Washington

Dear Linda Schaffel:

On August 20, 2020, the Department of Ecology received a Certification of Consistency with the Washington State Coastal Zone Management Program (CZMP) for the above project.

This determination is for Northwest Shellfish Company's proposed project to plant juvenile geoducks in the substrate by hand between the subtidal property boundary (-4.5 ft) and +5 ft MLLW. Four-inch diameter PVC tubes (approximately 10.75 inch length) will be manually placed in the substrate at a depth of about 7 inches and a density of one tube per square foot. About three geoduck "seed," are then placed in each tube and the individual tube is netted for protection from predators. The nets are held in place by a rubber band. After approximately 12-24 months, the tubes and nets are removed. The tubes are then reused during the next rotation. Northwest Shellfish will frequently patrol the site and adjacent beach to help ensure no related materials such as nets, tubes, or rubber bands escape the project site. Harvest will be hydraulically using a high volume, low pressure water hose. Individual geoducks are manually removed from the beach and packed for transportation. Entry to the farm may be from uplands or by boat. Harvest may be during low tide or by divers. Following harvest, the area will be replanted with geoducks for another cycle.

The project site is located on tidelands within Eld Inlet, on parcel number 42900001400, adjacent to 5603 Countryside Beach Drive NW, near Olympia, Thurston County, Washington; Section 21, Township 19 North, Range 02 West.

Pursuant to Section 307(c)(3) of the Coastal Zone Management Act of 1972 as amended, Ecology concurs with Northwest Shellfish Company's determination that the proposed work is consistent with Washington's CZMP.

If you have any questions regarding Ecology's consistency decision, please contact Loree Randall at lore.randall@ecy.wa.gov.

YOUR RIGHT TO APPEAL

You have a right to appeal this decision to the Pollution Control Hearing Board (PCHB) within 30 days of the date of receipt of this decision. The appeal process is governed by Chapter 43.21B RCW and Chapter 371-08 WAC. "Date of receipt" is defined in RCW 43.21B.001(2).

To appeal you must do all of the following within 30 days of the date of receipt of this decision:

- File your appeal and a copy of this decision with the PCHB (see addresses below). Filing means actual receipt by the PCHB during regular business hours.
- Serve a copy of your appeal and this decision on Ecology in paper form - by mail or in person. (See addresses below.) E-mail is not accepted.

You must also comply with other applicable requirements in Chapter 43.21B RCW and Chapter 371-08 WAC.
