RE: Water Quality Certification Order No. **20022** for Corps Reference No. **202001205**,  
Willapa Management Area 3, Pacific County, Washington

Dear Erin Ewald:

On March 1, 2021, Taylor Shellfish Farms submitted a request for a Section 401 Water Quality Certification (WQC) under the federal Clean Water Act for the Willapa Management Area 3 located on tidelands within Willapa Bay, near Nahcotta, Pacific County, Washington.

On behalf of the state of Washington, the Department of Ecology certifies that the work described in the Joint Aquatic Resource Permit Application (JARPA) and the public notice complies with applicable provisions of Sections 301, 302, 303, 306, and 307 of the Clean Water Act, as amended, and applicable state laws. This certification is subject to the conditions contained in the enclosed Order.

Please ensure that anyone doing work under this Order has read, is familiar with, and is able to follow all of the provisions within the attached Order.

If you have any questions about this decision, please contact Jennifer Riedmayer by e-mail at [jennifer.riedmayer@ecy.wa.gov](mailto:jennifer.riedmayer@ecy.wa.gov). The enclosed Order may be appealed by following the procedures described within the Order.

Sincerely,

A handwritten signature in blue ink, appearing to read "Brenden", is written over a horizontal line.

Brenden McFarland, Section Manager  
Environmental Review and Transportation Section  
Shorelands and Environmental Assistance Program

<b>IN THE MATTER OF GRANTING A</b>	)	<b>ORDER No. 20022</b>
<b>WATER QUALITY</b>	)	<b>Corps Reference No. 202001205</b>
<b>CERTIFICATION TO</b>	)	Willapa Management Area 3 located on tidelands
Taylor Shellfish Farms	)	within Willapa Bay, near Nahcotta, Pacific
pursuant to 33 U.S.C. 1341 (FWPCA	)	County, Washington
§ 401), RCW 90.48.120, RCW 90.48.260	)	
and Chapter 173-201A WAC	)	

Taylor Shellfish Farms  
Attn: Erin Ewald  
130 SE Lynch Road  
Shelton, WA 98584

On March 1, 2021, Taylor Shellfish Farms submitted a request for a Section 401 Water Quality Certification (WQC) under the federal Clean Water Act for the Willapa Management Area 3, Pacific County, Washington. The Department of Ecology (Ecology) issued a public notice for the project on March 19, 2021.

This project proposes to commercially cultivate up to 1,021 acres of oysters seed catch between +1.0 foot (ft.) and -25.0 ft. tidal elevations on parcel numbers 79003000009, 79003000028, 79003000042, 79003000043, 79003000053, 79003000055, 79003000070, 79003000072, 79003000093, 79003000106, 79003000113, 79003000150, 79004000002, 79004000095. Access to tidelands is by boat.

This project includes areas where oyster shell is placed for the purpose of collecting natural oyster set. The shell is then removed to be planted to grow-out beds for single and cluster oysters. Aged and cleaned oyster shell is spread, or bagged cultch is placed in areas of the project parcels for the purpose of wild seed catch. The shell is then mechanically removed or pulled and placed on harvest scows and taken to different beds for grow out.

The project site is located on tidelands within Willapa Bay, on parcel numbers 79003000009, 79003000028, 79003000042, 79003000043, 79003000053, 79003000055, 79003000070, 79003000072, 79003000093, 79003000106, 79003000113, 79003000150, 79004000002, 79004000095, near Nahcotta, Pacific County, Washington; Township 11 North, Range 11 West; WRIA 24, Willapa Watershed.

With this Order, Ecology is granting Taylor Shellfish Farms's request for a Section 401 Water Quality Certification for the Willapa Management Area 3 project, provided that the activity is conducted in accordance with the Section 401 Water Quality Certification request and attachments Ecology received on March 1, 2021, and the following supporting documentation:

1. March 1, 2021 - Memo from Taylor Shellfish – Taylor Shellfish Water Quality Monitoring Protection Plan for this project. Regarding the project's compliance with the conservation measures associated with the "Programmatic Biological Opinions for Shellfish Activities in Washington State Inland Marine Waters" (U.S. Fish and Wildlife Service (USFWS))

Reference Number 01EWF00-2016-F-0121, National Marine Fisheries Service (NMFS) Reference Number WCR-2014-1502). This email also includes a description of Taylor Shellfish Farms water quality monitoring plan.

Based on the information submitted, Ecology has determined that the discharge from the project will comply with state water quality requirements. Prior to undertaking any changes that materially alter the project, Taylor Shellfish Farms must contact Ecology to determine whether a new Section 401 Water Quality Certification is required.

Issuance of this Section 401 Water Quality Certification for this proposal does not authorize Taylor Shellfish Farms to exceed applicable state water quality standards (Chapter 173-201A WAC), ground water quality standards (Chapter 173-200 WAC) or sediment quality standards (Chapter 173-204 WAC). Furthermore, nothing in this Section 401 Water Quality Certification absolves the Applicant from liability for contamination and any subsequent cleanup of surface waters, ground waters, or sediments resulting from project construction or operations.

**Special Condition:**

Any work that causes distressed or dying fish or discharges of oil, fuel, or other chemicals into state waters or onto land with a potential for entry into state waters is prohibited<sup>1</sup>. If such work, conditions, or discharges occur, immediately notify<sup>2</sup> Ecology's Regional Spill Response Office at 360-407-6300 and the Washington State Department of Fish & Wildlife with the nature and details of the problem, any actions taken to correct the problem, and any proposed changes in operation to prevent further problems. You will also need to notify the Washington Emergency Management Division<sup>3</sup> at 1-800-258-5990, for actual spills to water only. This condition is necessary to prevent oil and hazardous materials spills from causing environmental damage and to ensure compliance with water quality requirements. The sooner a spill is reported, the quicker it can be addressed, resulting in less harm.

In view of the foregoing and in accordance with 33 U.S.C. §1341, RCW 90.48.120, RCW 90.48.260 Chapter 173-200 WAC and Chapter 173-201A WAC, this WQC is granted to the Taylor Shellfish Farms, Willapa Management Area 3 project.

This Certification is not effective until the U.S. Corps of Engineers (Corps) Seattle District issues an individual Department of the Army (DA) permit for this project. Order No. **20022** will remain valid for the duration of the associated permit. Taylor Shellfish Farms should send a copy of the final DA permit to [fednotification@ecy.wa.gov](mailto:fednotification@ecy.wa.gov) within two weeks of receiving it.

## YOUR RIGHT TO APPEAL

You have a right to appeal this Order to the Pollution Control Hearing Board (PCHB) within 30 days of the date of receipt of this Order. The appeal process is governed by Chapter 43.21B RCW and Chapter 371-08 WAC. "Date of receipt" is defined in RCW 43.21B.001(2).

To appeal you must do both of the following within 30 days of the date of receipt of this Order:

- File your appeal and a copy of this Order with the PCHB (see addresses below). Filing means actual receipt by the PCHB during regular business hours.
- Serve a copy of your appeal and this Order on Ecology in paper form by mail or in person. (See addresses below.) E-mail is not accepted.

You must also comply with other applicable requirements in Chapter 43.21B RCW and Chapter 371-08 WAC.
