RE: Water Quality Certification Order No. **20006** for Corps Reference No. **202100348**,
Willapa Bay Management Area 2 North, Pacific County, Washington

Dear Erin Ewald:

On March 1, 2021, Taylor Shellfish Farms submitted a request for a Section 401 Water Quality Certification (WQC) under the federal Clean Water Act for the Willapa Bay Management Area 2 North, located on tidelands within Willapa Bay, near Bay Center, Pacific County, Washington.

On behalf of the state of Washington, the Department of Ecology certifies that the work described in the Joint Aquatic Resource Permit Application (JARPA) and the public notice complies with applicable provisions of Sections 301, 302, 303, 306, and 307 of the Clean Water Act, as amended, and applicable state laws. This certification is subject to the conditions contained in the enclosed Order.

Please ensure that anyone doing work under this Order has read, is familiar with, and is able to follow all of the provisions within the attached Order.

If you have any questions about this decision, please contact Jennifer Riedmayer by e-mail at jennifer.riedmayer@ecy.wa.gov. The enclosed Order may be appealed by following the procedures described within the Order.

Sincerely,

A handwritten signature in blue ink, appearing to read "Brenden", is written over a horizontal line.

Shelton, WA 98584

On March 1, 2021, Taylor Shellfish Farms submitted a request for a Section 401 Water Quality Certification (WQC) under the federal Clean Water Act for the Willapa Bay Management Area 2 North, Pacific County, Washington. The Department of Ecology (Ecology) issued a public notice for the project on March 18, 2021.

This project proposes to commercially cultivate up to 1,596 acres of oysters between +2.5 foot (ft.) and -3.0 ft. Mean Lower Low Water (MLLW) tidal elevations on parcel numbers 14101355471, 79000000010, 79000000013, 79000000055, 79000000072, 79000000076, 79000000078, 79000000081, 79000000090, 79001000001, 79001000011, 79001000015, 79001000023, 79001000030, 79001000040, 79001000043, 79001000056, 79001000101, 79001000114, 79001000116, 79001000150, 79001000152, 79001000155, 79001000156, 79001000160, 79001000161, 79001000162, 79001000175, 79001000176, 79001000198, 79001000202, 79001000245, 79001000246, 79001000259, 79001000277, 79001000297, 79001000325, 79001000327, 79001000338, and 79001000343. Access to tidelands is by boat.

Oysters are grown on longlines, in bags, or other near-bottom, or on-bottom methods, for both single and clusters. Harvest takes place manually or mechanically, with oysters either mechanically harvested using dredge boats, and then loaded onto barges or scows for transfer, or harvested by hand with oysters placed into tubs for pick up and transfer. Bags or longlines are harvested by pulling and emptying oysters onto barges for transfer. Bags are reused. Hatchery cultured and wild see is used.

Oysters beds located near Bay Center and South Ben may include off (near) bottom aquaculture systems such as oyster longlines, floating or flip bags. These structures include rebar anchoring and maybe include PVC support posts. Rope is then strung and set with spat on shell, or lined with bags and floats. These off-bottom systems are regularly maintained, monitored for wear, and replaced as need to ensure continued function.

The project site is located on tidelands within Willapa Bay, on parcel numbers 14101355471, 79000000010, 79000000013, 79000000055, 79000000072, 79000000076, 79000000078, 79000000081, 79000000090, 79001000001, 79001000011, 79001000015, 79001000023, 79001000030, 79001000040, 79001000043, 79001000056, 79001000101, 79001000114,

79001000116, 79001000150, 79001000152, 79001000155, 79001000156, 79001000160, 79001000161, 79001000162, 79001000175, 79001000176, 79001000198, 79001000202, 79001000245, 79001000246, 79001000259, 79001000277, 79001000297, 79001000325, 79001000327, 79001000338, and 79001000343, near Bay Center, Pacific County, Washington; Township 13 and 14 North, Range 10 West; WRIA 24, Willapa Bay Watershed.

With this Order, Ecology is granting Taylor Shellfish Farms's request for a Section 401 Water Quality Certification for the Willapa Bay Management Area 2 North project, provided that the activity is conducted in accordance with the Section 401 Water Quality Certification request and attachments Ecology received on March 1, 2021, and the following supporting documentation:

1. March 1, 2021 - Memo from Taylor Shellfish – Taylor Shellfish Water Quality Monitoring Protection Plan for this project. Regarding the project's compliance with the conservation measures associated with the "Programmatic Biological Opinions for Shellfish Activities in Washington State Inland Marine Waters" (U.S. Fish and Wildlife Service (USFWS) Reference Number 01EWF00-2016-F-0121, National Marine Fisheries Service (NMFS) Reference Number WCR-2014-1502). This email also includes a description of Taylor Shellfish Farms water quality monitoring plan.

Based on the information submitted, Ecology has determined that the discharge from the project will comply with state water quality requirements. Prior to undertaking any changes that materially alter the project, Taylor Shellfish Farms must contact Ecology to determine whether a new Section 401 Water Quality Certification is required.

Issuance of this Section 401 Water Quality Certification for this proposal does not authorize Taylor Shellfish Farms to exceed applicable state water quality standards (Chapter 173-201A WAC), ground water quality standards (Chapter 173-200 WAC) or sediment quality standards (Chapter 173-204 WAC). Furthermore, nothing in this Section 401 Water Quality Certification absolves the Applicant from liability for contamination and any subsequent cleanup of surface waters, ground waters, or sediments resulting from project construction or operations.

Special Condition:

Any work that causes distressed or dying fish or discharges of oil, fuel, or other chemicals into state waters or onto land with a potential for entry into state waters is prohibited¹. If such work, conditions, or discharges occur, immediately notify² Ecology's Regional Spill Response Office at 360-407-6300 and the Washington State Department of Fish & Wildlife with the nature and details of the problem, any actions taken to correct the problem, and any proposed changes in operation to prevent further problems. You will also need to notify the Washington Emergency Management

¹ RCW 90.48

² WAC 173-303-145

Division³ at 1-800-258-5990, for actual spills to water only. This condition is necessary to prevent oil and hazardous materials spills from causing environmental damage and to ensure compliance with water quality requirements. The sooner a spill is reported, the quicker it can be addressed, resulting in less harm.

In view of the foregoing and in accordance with 33 U.S.C. §1341, RCW 90.48.120, RCW 90.48.260 Chapter 173-200 WAC and Chapter 173-201A WAC, this WQC is granted to the Taylor Shellfish Farms, Willapa Bay Management Area 2 North project.

This Certification is not effective until the U.S. Corps of Engineers (Corps) Seattle District issues an individual Department of the Army (DA) permit for this project. Order No. **20006** will remain valid for the duration of the associated permit. Taylor Shellfish Farms should send a copy of the final DA permit to fednotification@ecy.wa.gov within two weeks of receiving it.

YOUR RIGHT TO APPEAL

You have a right to appeal this Order to the Pollution Control Hearing Board (PCHB) within 30 days of the date of receipt of this Order. The appeal process is governed by Chapter 43.21B RCW and Chapter 371-08 WAC. "Date of receipt" is defined in RCW 43.21B.001(2).

To appeal you must do both of the following within 30 days of the date of receipt of this Order:

- File your appeal and a copy of this Order with the PCHB (see addresses below). Filing means actual receipt by the PCHB during regular business hours.
- Serve a copy of your appeal and this Order on Ecology in paper form by mail or in person. (See addresses below.) E-mail is not accepted.

You must also comply with other applicable requirements in Chapter 43.21B RCW and Chapter 371-08 WAC.
