RE: Coastal Zone Consistency for Corps Reference No. **201000240**,
Wiegardt Seal Spit DNR Shellfish Farm, Pacific County, Washington

Dear Ken Wiegardt:

On May 26, 2021, the Department of Ecology received a Certification of Consistency with the Washington State Coastal Zone Management Program (CZMP) for the above project.

This determination is for the proposed project to continue to farm 16 acres of on bottom oyster culture. Oysters that are near market size are placed on the substrate and left to fatten until they are market ready. Oysters are harvested every 1 to 2 years depending on oyster meat condition and growth. Oyster harvest will either be done by dredge at high tide or by hand at low tide. Up to 16 acres of dredge harvest may occur each year.

The project site is located on tidelands within Willapa Bay, on DNR Lease 20-A13354, near Ocean Park, Pacific County, Washington; Section 26, 27, Township 13 North, Range 11 West; WRIA 24, Willapa Watershed.

Pursuant to Section 307(c)(3) of the Coastal Zone Management Act of 1972 as amended, Ecology concurs with Wiegardt and Sons, Inc.'s determination that the proposed work is consistent with Washington's CZMP.

If you have any questions regarding Ecology's consistency decision, please contact Marco Pinchot at marco.pinchot@ecy.wa.gov.
