RE: Water Quality Certification Order No. 20373 for Corps Reference No. 201200581,
Gustave Wiegardt Jr. and Northern Oyster Co. Clams, Pacific County, Washington

Dear Gustave A. Wiegardt Jr.:

On January 26, 2021, Gustave A. Wiegardt Jr. submitted a request for a Section 401 Water Quality Certification (WQC) under the federal Clean Water Act for the Gustave Wiegardt Jr. and Northern Oyster Co. Clams located on tidelands within Willapa Bay, near Oysterville, Pacific County, Washington.

On behalf of the state of Washington, the Department of Ecology certifies that the work described in the Joint Aquatic Resource Permit Application (JARPA) and the public notice complies with applicable provisions of Sections 301, 302, 303, 306, and 307 of the Clean Water Act, as amended, and applicable state laws. This certification is subject to the conditions contained in the enclosed Order.

Please ensure that anyone doing work under this Order has read, is familiar with, and is able to follow all of the provisions within the attached Order.

If you have any questions about this decision, please contact Marco Pinchot by e-mail at marco.pinchot@ecy.wa.gov. The enclosed Order may be appealed by following the procedures described within the Order.

Sincerely,

A handwritten signature in blue ink, appearing to read "Brenden", is written over a horizontal line.

IN THE MATTER OF GRANTING A)	ORDER No. 20373
WATER QUALITY)	Corps Reference No. 201200581
CERTIFICATION TO)	Gustave Wiegardt Jr. and Northern Oyster Co.
Gustave A. Wiegardt Jr.)	Clams located on tidelands within Willapa Bay,
pursuant to 33 U.S.C. 1341 (FWPCA)	near Oysterville, Pacific County, Washington
§ 401), RCW 90.48.120, RCW 90.48.260)	
and Chapter 173-201A WAC)	

Gustave Wiegardt Jr. and Northern Oyster Co. Clams
Attn: Gustave A. Wiegardt Jr.
PO Box 305
Ocean Park, WA 98640

On January 26, 2021, Gustave A. Wiegardt Jr. submitted a request for a Section 401 Water Quality Certification (WQC) under the federal Clean Water Act for Gustave Wiegardt Jr. and Northern Oyster Co. Clams, Pacific County, Washington. The Department of Ecology (Ecology) issued a public notice for the project on June 16, 2021.

This project proposes to continue farming Manila Clams and some Pacific Oysters on 16.63 acres of previously permitted, privately owned tidelands using traditional ground culture methods including seeding and harvesting by hand, between +1.5 and +3.0 feet (MLLW). The applicant will apply up to 50 cubic yards of washed gravel annually to maintain up to a 1-inch thick layer of gravel on the substrate (frosting). Approximately 5 acres are frosted per year. Clam nets will not be deployed. Clam ground may be enhanced for larval recruitment by sprinkling crushed oyster shell pieces for clam larvae to attach. Sites are accessed by boat or from shore. Clams are harvested by hand during low tides on a 2 to 4 year rotation depending on size, growth, density, natural recruitment, and mortality. Any oysters grown will be by traditional ground culture methods and will be harvested by hand.

The project site is located on tidelands within Willapa Bay, on parcel numbers 12111055540 and 79005000249, adjacent to 31920 Sandridge Road, Oysterville, WA 98641, Pacific County, Washington; Section 10 and 15, Township 12 North, Range 11 West; WRIA 24, Willapa Watershed.

With this Order, Ecology is granting Gustave A. Wiegardt Jr.'s request for a Section 401 Water Quality Certification for the Gustave Wiegardt Jr. and Northern Oyster Co. Clams project, provided that the activity is conducted in accordance with the Section 401 Water Quality Certification request and attachments Ecology received on January 26, 2021, and the following supporting documentation:

1. E-mail letter to Ecology dated April 29, 2021, regarding the project's compliance with the conservation measures associated with the "Programmatic Biological Opinions for Shellfish Activities in Washington State Inland Marine Waters" (U.S. Fish and Wildlife Service (USFWS) Reference Number 01EWF00-2016-F-0121, National Marine Fisheries Service (NMFS) Reference Number WCR-2014-1502). This email also includes a description of

Gustave A. Wiegardt Jr. water quality monitoring plan, and Gustave A. Wiegardt Jr. commitment to follow the 2019 Puget Sound Shellfish Growers Association Environmental Codes of Practice for Shellfish Aquaculture.

Based on the information submitted, Ecology has determined that the discharge from the project will comply with state water quality requirements. Prior to undertaking any changes that materially alter the project, Gustave A. Wiegardt Jr. must contact Ecology to determine whether a new Section 401 Water Quality Certification is required.

Issuance of this Section 401 Water Quality Certification for this proposal does not authorize Gustave A. Wiegardt Jr. to exceed applicable state water quality standards (Chapter 173-201A WAC), ground water quality standards (Chapter 173-200 WAC) or sediment quality standards (Chapter 173-204 WAC). Furthermore, nothing in this Section 401 Water Quality Certification absolves the Applicant from liability for contamination and any subsequent cleanup of surface waters, ground waters, or sediments resulting from project construction or operations.

Special Condition:

Any work that causes distressed or dying fish or discharges of oil, fuel, or other chemicals into state waters or onto land with a potential for entry into state waters is prohibited¹. If such work, conditions, or discharges occur, immediately notify² Ecology's Regional Spill Response Office at 360-407-6300 and the Washington State Department of Fish & Wildlife with the nature and details of the problem, any actions taken to correct the problem, and any proposed changes in operation to prevent further problems. You will also need to notify the Washington Emergency Management Division³ at 1-800-258-5990, for actual spills to water only. This condition is necessary to prevent oil and hazardous materials spills from causing environmental damage and to ensure compliance with water quality requirements. The sooner a spill is reported, the quicker it can be addressed, resulting in less harm.

In view of the foregoing and in accordance with 33 U.S.C. §1341, RCW 90.48.120, RCW 90.48.260 Chapter 173-200 WAC and Chapter 173-201A WAC, this WQC is granted to the Gustave A. Wiegardt Jr., Gustave Wiegardt Jr. and Northern Oyster Co. Clams project.

This Certification is not effective until the U.S. Corps of Engineers (Corps) Seattle District issues an individual Department of the Army (DA) permit for this project. Order No. **20373** will remain valid for the duration of the associated DA permit. Gustave A. Wiegardt Jr. should send a copy of the final DA permit to fednotification@ecy.wa.gov within two weeks of receiving it.

³ RCW 90.56.280

YOUR RIGHT TO APPEAL

You have a right to appeal this Order to the Pollution Control Hearing Board (PCHB) within 30 days of the date of receipt of this Order. The appeal process is governed by Chapter 43.21B RCW and Chapter 371-08 WAC. "Date of receipt" is defined in RCW 43.21B.001(2).

To appeal you must do both of the following within 30 days of the date of receipt of this Order:

- File your appeal and a copy of this Order with the PCHB (see addresses below). Filing means actual receipt by the PCHB during regular business hours.
- Serve a copy of your appeal and this Order on Ecology in paper form by mail or in person. (See addresses below.) E-mail is not accepted.

You must also comply with other applicable requirements in Chapter 43.21B RCW and Chapter 371-08 WAC.
