RE: Water Quality Certification Order No. **20704** for Corps Reference No. **202000819**,
Willapa Wild LLC, Clam Farm, Pacific County, Washington

Dear Antony Barran:

On July 7, 2021, Willapa Wild LLC submitted a request for a Section 401 Water Quality Certification (WQC) under the federal Clean Water Act for the Willapa Wild LLC, Clam Farm located on tidelands within Willapa Bay, near Bay Center, Pacific County, Washington.

On behalf of the state of Washington, the Department of Ecology certifies that the work described in the Joint Aquatic Resource Permit Application (JARPA) and the public notice complies with applicable provisions of Sections 301, 302, 303, 306, and 307 of the Clean Water Act, as amended, and applicable state laws. This certification is subject to the conditions contained in the enclosed Order.

Please ensure that anyone doing work under this Order has read, is familiar with, and is able to follow all of the provisions within the attached Order.

If you have any questions about this decision, please contact Marco Pinchot by e-mail at marco.pinchot@ecy.wa.gov. The enclosed Order may be appealed by following the procedures described within the Order.

Sincerely,

Brenden McFarland, Section Manager
Environmental Review and Transportation Section
Shorelands and Environmental Assistance Program

IN THE MATTER OF GRANTING A) ORDER No. 20704
WATER QUALITY) Corps Reference No. 202000819
CERTIFICATION TO) Willapa Wild LLC, Clam Farm located on
Willapa Wild LLC) tidelands within Willapa Bay, near Bay Center,
pursuant to 33 U.S.C. 1341 (FWPCA) Pacific County, Washington
§ 401), RCW 90.48.120, RCW 90.48.260)
and Chapter 173-201A WAC)

Willapa Wild LLC
Attn: Antony Barran
PO Box 1193
Ocean Park, WA 98640

On July 7, 2021, Willapa Wild LLC submitted a request for a Section 401 Water Quality Certification (WQC) under the federal Clean Water Act for the Willapa Wild LLC, Clam Farm, Pacific County, Washington. The Department of Ecology (Ecology) issued a public notice for the project on August 2, 2021.

This project proposes to continue cultivating Manila clams for human consumption on approximately 7 acres of intertidal ground between +2ft and 0ft MLLW.

Prior to planting, clam beds are prepared by applying a thin layer of washed gravel mixed with shell fragments directly to the substrate (i.e., frosting). This activity occurs annually, when the tide is high enough to float a barge carrying the frosting material. Manila clams (*Venerupis philippinarum*) are seeded by hand directly onto the beach substrate.

After seeding, predator exclusion nets may be used to cover the clam bed, with edges anchored using rebar or buried in the substrate. Nets would remain in place until harvest, which generally takes 2-3 years. Clams will be harvested by hand.

The project site is located on tidelands within Willapa Bay, on parcel number 14102755357 (OB-357A), near Bay Center, Pacific County, Washington; Section 28, Township 14 North, Range 10 West; WRIA 24, Willapa Watershed.

With this Order, Ecology is granting Willapa Wild LLC's request for a Section 401 Water Quality Certification for the Willapa Wild LLC, Clam Farm project, provided that the activity is conducted in accordance with the Section 401 Water Quality Certification request and attachments Ecology received on July 7, 2021 and supplemental documents received on July 29, 2021, and the following supporting documentation:

1. E-mail letter to Ecology dated July 7, 2021, regarding the project's compliance with the conservation measures associated with the "Programmatic Biological Opinions for Shellfish Activities in Washington State Inland Marine Waters" (U.S. Fish and Wildlife Service (USFWS) Reference Number 01EWF00-2016-F-0121, National Marine Fisheries Service

(NMFS) Reference Number WCR-2014-1502). This email also includes a description of Willapa Wild LLC water quality monitoring plan.

Based on the information submitted, Ecology has determined that the discharge from the project will comply with state water quality requirements. Prior to undertaking any changes that materially alter the project, Willapa Wild LLC must contact Ecology to determine whether a new Section 401 Water Quality Certification is required.

Issuance of this Section 401 Water Quality Certification for this proposal does not authorize Willapa Wild LLC to exceed applicable state water quality standards (Chapter 173-201A WAC), ground water quality standards (Chapter 173-200 WAC) or sediment quality standards (Chapter 173-204 WAC). Furthermore, nothing in this Section 401 Water Quality Certification absolves the Applicant from liability for contamination and any subsequent cleanup of surface waters, ground waters, or sediments resulting from project construction or operations.

Special Condition:

Any work that causes distressed or dying fish or discharges of oil, fuel, or other chemicals into state waters or onto land with a potential for entry into state waters is prohibited¹. If such work, conditions, or discharges occur, immediately notify² Ecology's Regional Spill Response Office at 360-407-6300 and the Washington State Department of Fish & Wildlife with the nature and details of the problem, any actions taken to correct the problem, and any proposed changes in operation to prevent further problems. You will also need to notify the Washington Emergency Management Division³ at 1-800-258-5990, for actual spills to water only. This condition is necessary to prevent oil and hazardous materials spills from causing environmental damage and to ensure compliance with water quality requirements. The sooner a spill is reported, the quicker it can be addressed, resulting in less harm.

In view of the foregoing and in accordance with 33 U.S.C. §1341, RCW 90.48.120, RCW 90.48.260 Chapter 173-200 WAC and Chapter 173-201A WAC, this WQC is granted to the Willapa Wild LLC, Willapa Wild LLC, Clam Farm project.

This Certification is not effective until the U.S. Corps of Engineers (Corps) Seattle District issues an individual Department of the Army (DA) permit for this project. Order No. **20704** will remain valid for the duration of the associated DA permit. Willapa Wild LLC should send a copy of the final DA permit to fednotification@ecy.wa.gov within two weeks of receiving it.

¹ RCW 90.48

² WAC 173-303-145

³ RCW 90.56.280

YOUR RIGHT TO APPEAL

You have a right to appeal this Order to the Pollution Control Hearing Board (PCHB) within 30 days of the date of receipt of this Order. The appeal process is governed by Chapter 43.21B RCW and Chapter 371-08 WAC. "Date of receipt" is defined in RCW 43.21B.001(2).

To appeal you must do both of the following within 30 days of the date of receipt of this Order:

- File your appeal and a copy of this Order with the PCHB (see addresses below). Filing means actual receipt by the PCHB during regular business hours.
- Serve a copy of your appeal and this Order on Ecology in paper form by mail or in person. (See addresses below.) E-mail is not accepted.

You must also comply with other applicable requirements in Chapter 43.21B RCW and Chapter 371-08 WAC.
