IN THE MATTER OF THE REQUEST BY) ORDER No. 20918
MVLDC, LLC)
FOR AN ADMINISTRATIVE ORDER TO) Corps Ref. No. #NWS-2021-822
CONDUCT WORK IN NON-FEDERALLY)
REGULATED WETLANDS)

TO: MVLDC, LLC
Attn: Joey Ferrick
505 106th Avenue NE, Suite 110
Bellevue, WA 98004

This is an Administrative Order requiring MVLDC, LLC to comply with Chapter 90.48 RCW and the rules and regulations of the Department of Ecology (Ecology) by taking certain actions which are described below. RCW 90.48.120(1) authorizes Ecology to issue Administrative Orders requiring compliance whenever it determines that a person has violated or creates a substantial potential to violate any provision of Chapter 90.48 RCW.

On November 22, 2021, Ecology received a Joint Aquatic Resources Permit Application (JARPA) requesting an Administrative Order to impact 7,768 ft² of non-federally regulated wetlands to construct the Inspiration Point Planned Residential Development (PRD) in Snohomish County. The U.S. Army Corps of Engineers (Corps) issued its jurisdictional determination on November 3, 2021, concluding that Wetlands A and B are not Waters of the U.S. The site is located at 5421 83rd Avenue NE in Marysville, Snohomish County, Section 36, Township 30N., Range 5E., and WRIA 7-Snohomish.

This Administrative Order authorizes 7,768 ft² of Category IV wetland impacts at the project location. Mitigation for this proposal will consist of purchasing 0.16-acre credits at the Snohomish Basin Mitigation Bank.

For purposes of this Order, the term “Applicant” shall mean MVLDC, LLC and its agents, assigns, and contractors.

In view of the foregoing and in accordance with RCW 90.48.120(1):

IT IS ORDERED that the Applicant shall comply with the following:

A. General Conditions:

1. The Applicant shall construct and operate the project in a manner consistent with the project description contained in the JARPA received by Ecology on November 22, 2021 or as otherwise approved by Ecology.

2. For purposes of this Order, all submittals required by its conditions shall be sent to fednotification@ecy.wa.gov and cc to doug.gresham@ecy.wa.gov. Any submittals shall reference Order No. 20918.
3. The Applicant shall provide access to the project site upon request by Ecology.
4. Copies of this Order shall be kept on the job site and readily available for reference by Ecology personnel, the construction superintendent, construction managers and forepersons, and state and local government inspectors.
5. Nothing in this Order waives Ecology's authority to issue additional orders if Ecology determines further actions are necessary to implement the water quality laws of the state. Further, Ecology retains continuing jurisdiction to make modifications hereto through supplemental order, if additional impacts due to project construction or operation are identified (e.g., violations of water quality standards, downstream erosion, etc.), or if additional conditions are necessary to further protect the public interest.
6. The Applicant shall ensure that all appropriate project engineers and contractors at the project site have read and understand relevant conditions of this Order and all permits, approvals, and documents referenced in this Order.

B. Notification Requirements:

1. The Applicant shall provide written notification to Ecology in accordance with condition A.2. for the following activities:
 - a. At least seven (7) days prior to conducting work activities in wetlands.
 - b. Immediately following a violation of the state water quality standards or any condition of this Order.
 - c. Within seven (7) days of completing work activities in wetlands.

C. Wetland Mitigation Conditions:

1. The Applicant shall mitigate wetland impacts as described in the *Mitigation Bank Use Plan–Inspiration Point PRD* (hereafter called the “mitigation plan”) prepared by Soundview Consultants, dated October 8, 2021, or as revised and approved by Ecology.

2. The Applicant shall notify and submit in writing to Ecology (see A.2) any proposed changes to the amount of wetland impacts or revisions to the mitigation plan before implementing the changes.
3. Prior to impacting wetlands, the Applicant shall submit to Ecology documentation from the bank sponsor verifying the purchase of 0.16-acre mitigation bank credits (credits) from the Snohomish Basin Mitigation Bank. This documentation must include the Ecology Order number, Order issuance date, impact acreage, the amount of credits required by the Order, and date of credit purchase.
4. The Applicant shall complete the purchase of credits before the impacts to wetlands occur, or Ecology may require additional compensation to account for temporal loss of wetland functions.
5. If the Applicant has not purchased credits within 13 months of the date of this Order, the Applicant shall inform Ecology, in writing, of the status of:
 - a) Inspiration Point PRD
 - b) When bank credits will be purchased

With the:

- c) Reason for the delay
- d) Expected date of completion

The Applicant shall submit an updated written notification every 12 months thereafter until Inspiration Point PRD is complete and the required credits are purchased.

6. Until the Applicant has received written notice from Ecology that the Mitigation Plan has been fully implemented, the Applicant's obligation under Condition C.1 to mitigate for wetland impacts is not met.

D. Timing

1. This Order will expire when all its conditions have been met and upon receipt of a mitigation closeout letter from Ecology.

Failure to comply with this Order may result in the issuance of civil penalties or other actions, whether administrative or judicial, to enforce the terms of this Order.
