RE: Coastal Zone Consistency for Corps Reference #NWS-2018-1191-WRD,
Don Armeni Boat Ramp Piling and Floating Dock Replacement Project, Seattle,
King County, Washington

Dear David Graves:

On April 23, 2021, the Department of Ecology received a Certification of Consistency with the Washington State Coastal Zone Management Program (CZMP) for the above project. On September 20, 2021, City of Seattle Parks and Recreation and Ecology agreed to stay the CZM until December 31, 2021. On December 17, 2021, a second stay was agreed to until April 23, 2022.

This decision is for replacement of two existing wood floating docks. The new docks will increase in width from 6 to 8 feet and extend out an additional 4.25 feet, increasing overwater coverage by 691 square feet, with light passage elements incorporated into the new concrete floats. In addition, two existing concrete anchors/abutments will be replaced. Mitigation for the project includes removal of timber piles at Pier 58.

The project site is located at the Don Armeni Boat Launch, 1222 Harbor Avenue SW, Elliott Bay, in Seattle, Washington, in King County.

Pursuant to Section 307(c)(3) of the Coastal Zone Management Act of 1972 as amended, Ecology concurs with City of Seattle Parks and Recreation's determination that the proposed work is consistent with Washington's CZMP.

If you have any questions regarding Ecology's consistency decision please contact Rebekah Padgett at (425) 365-6571.
