RE: Coastal Zone Consistency for Activity Undertaken by a Federal Agency  
Sand Island Pile Dike Repairs at Pile Dike 6.37, Columbia River, near Chinook, Pacific  
County, Washington

Dear Christopher Page:

On February 7, 2022, the U.S. Army Corps of Engineers, Portland District submitted a Certification of Consistency with the Washington State Coastal Zone Management Program (CZMP). The proposed federal activity includes repair work to pile dike number 6.37 and will entail the removal of approximately 875 timber piles and placement of approximately 4,091 cubic yards of enhanced enrockment within the existing pile dike enrockment area. The project is located at Sand Island pile dike number 6.37 in the Columbia River at river mile 7, near Chinook, Pacific County, Washington.

Pursuant to Section 307(c)(3) of the Coastal Zone Management Act of 1972 as amended, Ecology concurs with the U.S. Army Corps of Engineers' determination that the proposed work is consistent with Washington's CZMP.

If you have any questions regarding Ecology's consistency determination please contact Lori Kingsbury at [lori.kingsbury@ecy.wa.gov](mailto:lori.kingsbury@ecy.wa.gov).
