RE: Coastal Zone Consistency for Corps Reference No. NWS-2016-545 for the Eagle Harbor Maintenance Facility Slip F Drive-on Slip Improvement in Kitsap County, Washington

Dear Kevin Bartoy:

On March 3, 2022, the Department of Ecology received a Certification of Consistency with the Washington State Coastal Zone Management Program (CZMP) for the above project.

This determination is for the replacement and upgrade of infrastructure at the Eagle Harbor Maintenance Facility, owned and operated by Washington State Ferries. This facility has six vessel slips for maintenance work designed to keep the entire ferry fleet running. An existing gangplank system at Slip F will be replaced with a new steel pile trestle and transfer span that has an adjustable mechanical system. The new infrastructure provides additional vehicle drive-on access allowing greater flexibility for doing maintenance work on ferries of all types. The project is located at 497 Harbor View Drive SE, on Bainbridge Island in Eagle Harbor, which is part of Puget Sound and is in Kitsap County, Washington.

Pursuant to Section 307(c)(3) of the Coastal Zone Management Act of 1972 as amended, Ecology concurs with Washington State Ferries' determination that the proposed work is consistent with Washington's CZMP.

If you have any questions regarding Ecology's consistency determination please contact Penny Kelley at (360) 280-8856.
