RE: Coastal Zone Consistency for Corps Reference No. **NWS-2016-530**,
Snohomish County PUD No. 1 – Stanwood to Camano Island 115kV Transmission Line
Project, Snohomish and Island Counties, Washington

Dear Trinh Ly:

On October 25, 2021, the Department of Ecology received a Certification of Consistency with the Washington State Coastal Zone Management Program (CZMP) for the above project. Snohomish County Public Utility District No. 1 and Ecology agreed to stay the CZM on March 17, 2022 June 30, 2022. And on June 21, 2022, a second stay was agreed to until August 31, 2022.

This decision is for the construction of a new 5.3-mile overhead 115kV transmission line between the North Stanwood and North Camano substations (Phase I), and a 2.7-mile overhead 115kV transmission line rebuild between the North Stanwood substation and Smith Road, Camano Island (Phase II). The project location spans approximately 8 miles from the City of Stanwood to North Camano Island, Washington, in Snohomish and Island Counties.

Pursuant to Section 307(c)(3) of the Coastal Zone Management Act of 1972 as amended, Ecology concurs with Snohomish County Public Utility District No. 1's determination that the proposed work is consistent with Washington's CZMP.

If you have any questions regarding Ecology's consistency decision please contact Rebekah Padgett at (425) 365-6571 or Rebekah.Padgett@ecy.wa.gov.
