Re: Coastal Zone Consistency for the Molasses Creek Restoration Project
Corps No. 202100771 King County, Washington

Dear Halli Harris:

On May 16, 2022, the Department of Ecology (Ecology) received a Certification of Consistency with the Washington State Coastal Zone Management Program (CZMP) for the above project.

This determination is for the enhancement of stream habitat and natural environment in the vicinity of the pipeline infrastructure by integrating additional structural and hydraulic complexity to the stream section and enhancing the associated riparian environment. Improvements will be made to an approx. 250-300 feet section of the stream and adjacent areas. These improvements would be located off 138th Place SE in Renton, Washington in King County.

Pursuant to Section 307(c)(3) of the Coastal Zone Management Act of 1972 as amended, Ecology concurs with Williams Northwest Pipeline LLC's determination that the proposed work is consistent with Washington's CZMP.

If you have any questions regarding Ecology's consistency determination, please contact Kerry Carroll at (360) 407-7503.
