Re: Coastal Zone Management Federal Consistency Decision for Willapa Landing Park Boat Ramp Maintenance (Corps No. NWS-2012-0157), Raymond, Pacific County, Washington

Dear James Sayce:

On October 5, 2022, the Department of Ecology (Ecology) received a Certification of Consistency with the Washington State Coastal Zone Management Program (CZMP) for the above project.

This determination is for maintenance dredging of the park boat ramp to restore authorized depth, using the Port's 10-inch hydraulic suction dredge, with transport and placement of approximately 9,200 cubic yards (cy) of dredged material to a proposed flowlane location located about 2,000 feet downstream from the boat ramp, where it can re-enter the littoral system and restore natural sediment transport processes that have been disrupted by the boat ramp.

The project site is located at the Willapa Landings Park Boat Ramp, Willapa River, Pacific County, Washington, Section 19, Township 14 N., Range 08W., within Water Resource Inventory Area (WRIA) 24, (Willapa).

Pursuant to Section 307(c)(3) of the Coastal Zone Management Act of 1972 as amended, Ecology concurs with Port of Willapa Harbor's determination that the proposed work is consistent with Washington's CZMP.

If you have any questions regarding Ecology's consistency determination, please contact Laura Inouye at 360-515-8213.
