Re: Coastal Zone Management Federal Consistency Decision for Haul Road Emergency Bank Stabilization, Phase 2 (Corps No. 202200379) Montesano, Grays Harbor, Washington

Dear Gary Nelson:

On March 7, 2023, the Department of Ecology (Ecology) received a Certification of Consistency with the Washington State Coastal Zone Management Program (CZMP) for the above project.

The determination is for the installation of bio-engineered techniques used on the left bank of the Chehalis River at river mile 17.5. Work is to include bank reshaping; the placement of log jacks, brush mattresses, boulder ballasted log triangles; and the re-establishment of the riparian buffer. The project is located on the left bank of the Chehalis River at river mile 17.5 near Montesano, Grays Harbor, Washington.

Pursuant to Section 307(c)(3) of the Coastal Zone Management Act of 1972 as amended, Ecology concurs with the Port of Grays Harbor's determination that the proposed work is consistent with Washington's CZMP.

If you have any questions regarding Ecology's decision, please contact Lori White at 564-669-1396.
