Re: Coastal Zone Management Federal Consistency Decision for Fugate Pier, Ramp, and Float (Corps No. 202200516), Wollochet Bay, Gig Harbor, Kitsap County, Washington

Dear Dong Jin Fugate:

On June 13, 2023, the Department of Ecology (Ecology) received a Certification of Consistency with the Washington State Coastal Zone Management Program (CZMP) for the above project. Pursuant to Section 307(c)(3) of the Coastal Zone Management Act of 1972 as amended, Ecology concurs with Dong Jin Fugate's determination that the proposed work is consistent with Washington's CZMP.

The proposed work includes the installation of a residential pier, ramp and float. The structure consists of: one 4' x 50' aluminum pier (4' x 47' overwater) with welded truss; one 3' x 40' aluminum ramp (3' x 34' overwater) with full side rails and decking with 100 percent fiberglass grating with 1.5-inch squares and 69 percent open area; and one 8' x 24' float with polyethylene foam filled tub flotation. The float surfaces are 50 percent composite decking and 50 percent fiberglass grating with 1.5-inch squares and 69 percent open area. Installation also includes two 8" galvanized steel piles, four 10" galvanized steel piles, and four pile mounted float stops designed to prevent grounding of the float. The total project consists of 482ft² of overwater coverage and the dock extends 105' from the existing concrete bulkhead.

The activity occurs within Wollochet Bay, on parcel number 0221193016, adjacent to 5216 Picnic Point Drive NW, near Gig Harbor, Kitsap County, Washington; Section 19, Township 21 North, Range 2 East; WRIA 15, Kitsap Watershed.
