<b>WQC Order No.</b>	22864
<b>Corps Reference No.</b>	NWS-2023-0118
<b>Site Location</b>	Petrogas Ferndale Pier Maintenance Activities 2023-2028 project located within the Strait of Georgia, near Ferndale, Whatcom County, Washington.

Petrogas Pacific, LLC (Travis Linds) submitted a request for a Section 401 Water Quality Certification (WQC) under the federal Clean Water Act for the Petrogas Ferndale Pier Maintenance Activities 2023-2028 project, Whatcom County, Washington. The following required processing dates are listed below:

- On 10/27/2023, the Petrogas Pacific, LLC (Travis Linds) submitted a pre-filing meeting request.
- On 12/15/2023, Ecology received a request for Clean Water Section 401 Water Quality Certification.
- On 6/1/2023, the U.S. Army Corps of Engineers (Corps) sent an email notification to Ecology that they are reviewing the project for authorization under a Section 10 Letter of Permission.
- On 12/21/2023, Ecology issued a public notice for the project.
- Ecology’s “Reasonable Period of Time” for this project has been established as 12/15/2024.

This project proposes to perform maintenance, repair, and removal activities to a Liquefied Natural Gas and raw aluminum ore pier structure located within the Strait of Georgia off Douglas Road at Ferndale, Washington. Project activities include pile repairs (epoxy encapsulation and jacket repairs/extensions); pile replacement; modification/repair/replacement of appurtenant structures such as fenders, access points, and fire pump intake; dolphin pile and other obsolete pile removal; replacement of the north mooring dolphin; and other above-water maintenance actions (i.e. bracing, caps, corrosion protection, pipelines).

The project site is located in the Strait of Georgia, Whatcom County, Washington, Section 29, Township 39 N., Range 01 E., within Water Resource Inventory Area (WRIA) 1, the Nooksack WRIA.

With this WQC Order, Ecology is granting with conditions Petrogas Pacific, LLC (Travis Linds) request for a Section 401 Water Quality Certification for the Petrogas Ferndale Pier Maintenance Activities 2023-2028 project, provided that the activity is conducted in accordance with the Section 401 Water Quality Certification request and attachments Ecology received on 12/15/2023, and the updated Water Quality Monitoring and Protection Plan dated 2/13/2024.

Based on the information submitted, Ecology has determined that the discharge from the project will comply with state water quality requirements. Prior to undertaking any changes that materially alter the project, Petrogas Pacific, LLC (Travis Linds) must contact Ecology to determine whether a new Section 401 Water Quality Certification is required.

Issuance of this Section 401 Water Quality Certification for this proposal does not authorize Petrogas Pacific, LLC (Travis Linds) to exceed applicable state water quality standards (Chapter 173-201A WAC), ground water quality standards (Chapter 173-200 WAC), or sediment quality standards (Chapter 173-204 WAC). Furthermore, nothing in this Section 401 Water Quality Certification absolves Petrogas Pacific, LLC (Travis Linds) from liability for contamination and any subsequent cleanup of surface waters, ground waters, or sediments resulting from project construction or operations.
