Re: Coastal Zone Management Federal Consistency Decision for Murphy's Landing Marina  
Maintenance Dredging (Corps No. NWS-2022-00330), Gig Harbor, Pierce County,  
Washington

Dear Jaime Storkman:

On June 18, 2024, the Department of Ecology (Ecology) received a Certification of Consistency with the Washington State Coastal Zone Management Program (CZMP) for the above project. Pursuant to Section 307(c)(3) of the Coastal Zone Management Act of 1972 as amended, Ecology concurs with Association of Moorage Slip Owners of Murphy's Landing II's determination that the proposed work is consistent with Washington's CZMP.

The proposed work includes removal of up to 2,100 cubic yards (CY) of accumulated sediment. Dredging would occur up to three times over a 10-year period, with up to 700 CY of sediment removed per event. The area to be dredged is 8,000 square feet, located near the northern entrance to Murphy's Landing Marina. Accumulated sediments would be dredged to an elevation of -10 feet relative to mean lower low water (MLLW). The proposed open-water disposal area is the Commencement Bay Open-Water Disposal Site. This activity will occur at Murphy's Landing Marina, located within Gig Harbor, Pierce County, Washington.

If you have any questions regarding Ecology's decision, please contact Laura Inouye at 360-515-8213.
