Re: Coastal Zone Management Federal Consistency Decision for McGlinn Island Jetties
Interim Repairs, Swinomish Channel and Skagit River, LaConner, Skagit County,
Washington

Dear Brandon Clinton:

On November 13, 2024, the U.S. Army Corps of Engineers, Seattle District submitted a Consistency Determination with the Washington State Coastal Zone Management Program (CZMP). Ecology issued a 21-day public notice on November 27, 2024, and received no comments.

The proposed activity includes placement of approximately 3,000 cubic yards, per year, of new cobble, quarry spalls, and gravel to repair consecutive sections of the jetties over the next three to five years. All new materials for jetty repairs will be placed along the crest and south face within the existing jetty prism. The project is located on the east and west McGlinn Island jetties in LaConner, Skagit County, Washington.

Pursuant to Section 307(c)(3) of the Coastal Zone Management Act of 1972 as amended, Ecology concurs with the U.S. Army Corps of Engineers' determination that the proposed work is consistent with Washington's CZMP.

If you have any questions regarding Ecology's decision, please contact Jessica Hausman at jessica.hausman@ecy.wa.gov.
