Re: Water Quality Certification Order No. **23476** (Corps No. **NWS-2024-1041-DOT**), SR
20/Campbell Lake Rd Intersection Improvements - Roundabout, Skagit County, Washington

Dear Mark Stamey:

On December 17, 2024, WA Department of Transportation submitted a request for a Section 401 Water Quality Certification (WQC) under the federal Clean Water Act for the SR 20/Campbell Lake Rd Intersection Improvements - Roundabout, Skagit County, Washington.

On behalf of the state of Washington, the Department of Ecology certifies with conditions that the work described in the Water Quality Certification Request and supplemental documents complies with applicable provisions of Sections 301, 302, 303, 306, and 307 of the Clean Water Act, as amended, and applicable state laws. **This certification is subject to the enclosed Water Quality Certification Order (WQC Order).**

Please ensure that anyone doing work under this WQC Order has read, is familiar with, and is able to follow all of the provisions within the attached WQC Order.

If you have any questions about this decision, please contact Penny Kelley at 360-280-8856. The enclosed WQC Order may be appealed by following the procedures described within.

Sincerely,

Brenden McFarland, Section Manager
Environmental Review & Transportation Section
Shorelands and Environmental Assistance Program

In The Matter of Granting a Water Quality
Certification with Conditions to WA Department of Transportation
pursuant to 33 U.S.C. 1341 (FWPCA § 401), RCW 90.48.120, RCW
90.48.260 and Chapter 173-201A WAC

WA Department of Transportation

WQC Order No.	23476
Corps Reference No.	NWS-2024-1041-DOT
Site Location	SR 20/Campbell Lake Rd Intersection Improvements - Roundabout located within Tibbles Creek, Anacortes, Skagit County, Washington.

WA Department of Transportation (WSDOT) submitted a request for a Section 401 Water Quality Certification (WQC) under the federal Clean Water Act for the SR 20/Campbell Lake Rd Intersection Improvements - Roundabout, Skagit County, Washington. The required processing dates are listed below:

- On 11/9/2022, the WSDOT submitted a pre-filing meeting request.
- On 12/17/2024, Ecology received a request for Clean Water Section 401 Water Quality Certification.
- On 12/18/2024, WSDOT submitted additional information, and the Department of Ecology (Ecology) considered the Request valid on this date.
- On 12/20/2024, the U.S. Army Corps of Engineers (Corps) sent an email notification to Ecology that they are reviewing the project for authorization under the Nationwide Permit (NWP) Program.
- On 1/2/2025, Ecology issued a public notice for the project.
- Ecology's "Reasonable Period of Time" for this project has been established as 6/18/2025.

This project proposes to construct a 3-legged roundabout at the intersection of Campbell Lake Road and SR 20 to improve safety and the flow of traffic. A section of Tibbles Creek will be rerouted through a WSDOT mitigation site away from SR 20, allowing the former stream channel to be converted for stormwater conveyance. The new location of the stream channel will be forward compatible with a future culvert replacement and enhance both stream and wetland functions. Though the project will permanently impact a Category III wetland due to

the widening of SR 20, the stream realignment will provide a net increase in aquatic resources and compensatory mitigation is not required.

The project site is located at State Route 20 Mile Post 45.94 to 46.22, near Anacortes, Tibbles Creek, Skagit County, Washington, Section SE 18 and SW 7, Township 34N., Range 02E., within Water Resource Inventory Area (WRIA) 3 Lower Skagit.

With this WQC Order, Ecology is granting with conditions WSDOT's request for a Section 401 Water Quality Certification for the SR 20/Campbell Lake Rd Intersection Improvements - Roundabout project, provided that the activity is conducted in accordance with the Section 401 Water Quality Certification request and attachments Ecology received on 12/17/2024.

Based on the information submitted, Ecology has determined that the discharge from the project will comply with state water quality requirements. Prior to undertaking any changes that materially alter the project, WSDOT must contact Ecology to determine whether a new Section 401 Water Quality Certification is required.

Issuance of this Section 401 Water Quality Certification for this proposal does not authorize WSDOT to exceed applicable state water quality standards (Chapter 173-201A WAC), ground water quality standards (Chapter 173-200 WAC), or sediment quality standards (Chapter 173-204 WAC). Furthermore, nothing in this Section 401 Water Quality Certification absolves WSDOT from liability for contamination and any subsequent cleanup of surface waters, ground waters, or sediments resulting from project construction or operations.

1. This Certification is not effective until the U.S. Corps of Engineers (Corps) Seattle District issues a Department of the Army (DA) permit for this project. WQC Order No. **23476** will remain valid until November 30, 2026.
 - Justification – Certifications are required for any license or permit that authorizes an activity that may result in a discharge or fill material into waters. This WQC Order is not valid until the Federal agency issues a permit. Additionally, Ecology needs to be able to specify how long the WQC Order will be in effect.
 - Citation – Chapter 90.48 RCW, Chapter 173-201A WAC, and WAC 173-225-010.
2. WSDOT shall send a copy of the final Federal permit via e-mail to fednotification@ecy.wa.gov and cc to Penny.Kelley@ecy.wa.gov prior to the starting of any work authorized by this WQC Order. If the Federal Agency determines the proposed project does not require a Federal permit, WSDOT shall immediately inform Ecology.
 - Justification - This condition is needed to ensure that the federal permit has been issued and all the conditions of the WQC Order have been included into the federal permit.

- Citation - 40 CFR 121.10, 40 CFR 121.11, and Chapter 90.48 RCW.
3. Any work that causes distressed or dying fish or discharges of oil, fuel, or other chemicals into state waters or onto land with a potential for entry into state waters is prohibited. If such work, conditions, or discharges occur, immediately notify Ecology's Regional Spill Response Office at 360-407-6300 and the Washington State Department of Fish & Wildlife with the nature and details of the problem, any actions taken to correct the problem, and any proposed changes in operation to prevent further problems. You will also need to notify the Washington Emergency Management Division at 1-800-258-5990, for spills to water only. This condition is necessary to prevent oil and other hazardous materials spills from causing environmental damage and to ensure compliance with water quality requirements. The sooner a spill is reported, the quicker it can be addressed, resulting in less harm.
- Justification - This condition is necessary to prevent oil and hazardous materials spills from causing environmental damage and to ensure compliance with water quality requirements. The sooner a spill is reported, the quicker it can be addressed, resulting in less harm. Ecology must protect waters of the state from all discharges and potential discharges of pollution that can affect water quality to protect aquatic life and beneficial uses.
 - Citation - Chapter 90.48 RCW, RCW 90.48.030, RCW 90.48.080, Chapter 90.56 RCW, RCW 90.56.280, Chapter 173-201A WAC, WAC 173-201A-300 - 330, WAC 173-204-120, WAC 173-225-010, and WAC 173-303-145.

In view of the foregoing and in accordance with 33 U.S.C. §1341, RCW 90.48.120, RCW 90.48.260 Chapter 173-200 WAC and Chapter 173-201A WAC, this WQC is granted with conditions to the WSDOT for the SR 20/Campbell Lake Rd Intersection Improvements - Roundabout project.

Your right to appeal

You have a right to appeal this Order to the Pollution Control Hearings Board (PCHB) within 30 days of the date of receipt. The appeal process is governed by Chapter 43.21B RCW and Chapter 371-08 WAC. "Date of receipt" is defined in RCW 43.21B.001(2).

To appeal, you must do all of the following within 30 days of the date of receipt of this Order:

- File your notice of appeal and a copy of this Order with the PCHB (see filing information below). "Filing" means actual receipt by the PCHB during regular business hours as defined in WAC 371-08-305 and -335. "Notice of appeal" is defined in WAC 371-08-340.
- Serve a copy of your notice of appeal and this Order on the Department of Ecology by mail, in person, or by email (see addresses below).
