Re: Coastal Zone Management Federal Consistency Decision for the Dyes Inlet Lagoon
Bulkhead Removal and Restoration project (Corps No. NWS-2024-0060), Puget Sound,
Silverdale, Kitsap County, Washington

Dear Christina Kereki:

On March 10, 2025, the Department of Ecology (Ecology) received a Certification of Consistency with the Washington State Coastal Zone Management Program (CZMP) for the above project. Ecology issued a 21-day public notice on March 17, 2025. Pursuant to Section 307(c)(3) of the Coastal Zone Management Act of 1972 as amended, Ecology concurs with Kitsap County Department of Community Development's determination that the proposed work is consistent with Washington's CZMP.

This project proposes to restore degraded tidal flow processes by removing a total 514 linear feet of hard armor, 1300 CY of fill, and scattered debris, and restore a more natural salt marsh and lagoon profile. This project additionally proposes to plant approximately 0.85 acres with native plants, shrubs, and trees. This activity would occur in the Puget Sound, near Silverdale, Kitsap County, Washington.

If you have any questions regarding Ecology's decision, please contact Casey Vaughn at 564-669-4201.
