Re: Coastal Zone Management Federal Consistency Decision for Twin Bridges Marina (Corps No. NWS-2024-00100), Swinomish Channel, Mount Vernon, Skagit County, Washington

Dear Bill Youngsman:

On March 1, 2024, the Department of Ecology (Ecology) received a Certification of Consistency with the Washington State Coastal Zone Management Program (CZMP) for the above project. Ecology issued a 21-day public notice on August 16, 2024. Pursuant to Section 307(c)(3) of the Coastal Zone Management Act of 1972 as amended, Ecology concurs with Twin Bridges Marina's determination that the proposed work is consistent with Washington's CZMP.

On August 13, 2024, Twin Bridges Marina and Ecology agreed to stay the CZM until May 20, 2025 in order for the Twin Bridges Marina to the requirements of the state's Water Pollution Control Act.

The proposed work includes maintenance dredging within the marina basin and associated approach within the Swinomish Channel. The dredging action would be limited to re-establishing the originally permitted basin and channel depths using mechanical dredging methods. Once the originally permitted depth has been established the project also proposes to routinely dredge, such that smaller quantities of dredging will be required to maintain vessel access into the marina. Additionally, the project proposes a series of modifications and reconfiguration to overwater structures to improve access and use of the marina. This activity will occur in the Swinomish Channel, near Mount Vernon, Skagit County, Washington.
