TO: Ms. Sandra Shelin

On February 3, 2020 the Washington Department of Ecology (Ecology) issued a Section 401 Water Quality Certification to the US Army Corps of Engineers Walla Walla District (Corps) for the above-referenced project pursuant to the provisions of 33 U.S.C. 1341 (FWPCA § 401).

Ecology received a request on April 3, 2020 from the Corps to extend the expiration date of Order #18001. Due to COVID-19 concerns, the Corps halted the remaining dredging and anchor cable replacement work authorized under Order #18001. The Corps plans to complete the dredging and cable installation during the next winter in-water work window of December 15, 2020 - February 28, 2021. The Corps anticipates using the same work methods and work locations as described in the Joint Aquatic Resource Permit Application (JARPA) received by Ecology on December 10, 2019.

Order #18001 dated February 3, 2020 is hereby amended as follows:

I. Condition E.2. which reads:

This Order shall remain in effect until April 1st, 2020.

Is replaced with:

This Order shall remain in effect until February 28th, 2021

No other conditions or requirements of the above referenced Order are affected by this amendment.

Ecology retains continuing jurisdiction to make modifications hereto through supplemental order, if it appears necessary to further protect the public interest.

Failure to comply with this amended Order may result in the issuance of civil penalties or other actions whether administrative or judicial, to enforce the terms of this amended Order.
