RE: Coastal Zone Consistency for Corps Reference # 2020-00659,
Scheumann Pier Reconfiguration, Hunts Point, King County, Washington

Dear Theiline Scheumann:

On November 2, 2020, The Department of Ecology received a Certification of Consistency with the Washington State Coastal Zone Management Program (CZMP) for the above project.

This determination is for the reconfiguration of the north side of a joint pier. The project includes replacing the existing 2,124 square foot pier with a new reconfigured 1,986 square foot pier, relocating the existing boatlift to a new finger pier, and replacing the existing 490 square foot canopy with a new 336 square foot light permeable canopy. These improvements would be located at 3617 Hunts Point Road, Hunts Point, Washington in King County.

Pursuant to Section 307(c)(3) of the Coastal Zone Management Act of 1972 as amended, Ecology concurs with Theiline Scheumann's determination that the proposed work is consistent with Washington's CZMP.

If you have any questions regarding Ecology's consistency determination, please contact Loree' Randall at loree.randall.ecy.wa.gov.
