RE: Coastal Zone Consistency for Corps Reference No. **NWS-2007-1213**,
Jamestown S’Klallam Tribe Dungeness Bay Oyster Farm, Sequim, Clallam
County, Washington

Dear Chairperson Ron Allen:

On February 11, 2020, The Department of Ecology received a Certification of Consistency with the Washington State Coastal Zone Management Program (CZMP) for the above project.

This determination is for the cultivation of up to 34 acres of Pacific oysters using two on-bottom methods: mesh bag culture and loose culture. Up to five (5) acres will use on-bottom bag culture, and the remaining acreage will use on-bottom loose culture methods. The contiguous 5-acre area for on-bottom bag culture would be located near the northeastern boundary of a 50-acre lease parcel, in proximity to the boat access sites.

The project site is located within Dungeness Bay on tidelands along the Dungeness Spit, near Sequim, Clallam County, Washington; NE Quarter, Section 23; Township 31 North; Range 4 West; WRIA 18, Elwha-Dungeness Watershed.

Pursuant to Section 307(c)(3) of the Coastal Zone Management Act of 1972 as amended, Ecology concurs with the Jamestown S’Klallam Tribe’s determination that the proposed work is consistent with Washington’s CZMP.

If you have any questions regarding Ecology’s consistency determination please contact Lori Kingsbury at (360) 407-6926.
