RE: Water Quality Certification Order No. **19708** for Corps Reference No. **20100318**, Olsen & Son Ongoing Aquaculture 2, Pacific County, Washington

Dear Phillip & Norman Olsen:

On February 9, 2021, Olsen & Son Oyster Co. submitted a request for a Section 401 Water Quality Certification (WQC) under the federal Clean Water Act for Olsen & Son Ongoing Aquaculture 2 located on tidelands within Willapa Bay, near Bay Center, Pacific County, Washington.

On behalf of the state of Washington, the Department of Ecology certifies that the work described in the Joint Aquatic Resource Permit Application (JARPA) and the public notice complies with applicable provisions of Sections 301, 302, 303, 306, and 307 of the Clean Water Act, as amended, and applicable state laws. This certification is subject to the conditions contained in the enclosed Order.

Please ensure that anyone doing work under this Order has read, is familiar with, and is able to follow all of the provisions within the attached Order.

If you have any questions about this decision, please contact Teressa Pucylowski by e-mail at teressa.pucylowski@ecy.wa.gov. The enclosed Order may be appealed by following the procedures described within the Order.

Sincerely,

A handwritten signature in blue ink, appearing to read "Brenden", is written over a light blue circular stamp.

IN THE MATTER OF GRANTING A) ORDER No. 19708
WATER QUALITY) Corps Reference No. 201000318
CERTIFICATION TO) Olsen & Son Ongoing Aquaculture 2 located on
Olsen & Son Oyster Co.) tidelands within Willapa Bay, near Bay Center,
pursuant to 33 U.S.C. 1341 (FWPCA) Pacific County, Washington
§ 401), RCW 90.48.120, RCW 90.48.260)
and Chapter 173-201A WAC)

Olsen & Son Oyster Co.
Attn: Phillip & Norman Olsen
P.O. Box 905
South Bend, WA 98586

On February 9, 2021, Olsen & Son Oyster Co. submitted a request for a Section 401 Water Quality Certification (WQC) under the federal Clean Water Act for the Olsen & Son Ongoing Aquaculture 2, Pacific County, Washington. The Department of Ecology (Ecology) issued a public notice for the project on February 11, 2021.

This project will continue to commercially cultivate up to 90 acres of Pacific oysters at 0.0 feet Mean Lower Low Water (MLLW) tidal elevation. The proposed project is located 1,775 feet waterward from the approximate Mean High Water (MHW) shoreline and extends a maximum of 4.650 feet waterward of the approximate MHW shoreline. All access to the site will be by boat. Patches of native eelgrass are found throughout the project site.

Oysters will be grown on-bottom using no additional materials for grow-out. Oysters will be hand-planted either directly onto the substrate as single-seed oysters or scattered from a boat deck at high tide as cultch. Harvest will either take place by hand at low tide or by mechanical dredge harvest at high tide. The dredge method involves skimming the substrate on which the oysters rest with dredge baskets attached to dredge arms on the vessel at slow speeds. Annual dredge acres will not exceed 30 acres. The harvest cycle is approximately 3 years.

The project site is located on tidelands within Willapa Bay, on parcel numbers 79001000170 and 79001000040, near Bay Center, Pacific County, Washington; Township 14 North, Range 10 West; WRIA 14, Willapa Watershed.

With this Order, Ecology is granting Olsen & Son Oyster Co.'s request for a Section 401 Water Quality Certification for the Olsen & Son Ongoing Aquaculture 2 project, provided that the activity is conducted in accordance with the Section 401 Water Quality Certification request and attachments Ecology received on February 9, 2021.

Based on the information submitted, Ecology has determined that the discharge from the project will comply with state water quality requirements. Prior to undertaking any changes that materially alter the project, Olsen & Son Oyster Co. must contact Ecology to determine whether a new Section 401 Water Quality Certification is required.

Issuance of this Section 401 Water Quality Certification for this proposal does not authorize Olsen & Son Oyster Co. to exceed applicable state water quality standards (Chapter 173-201A WAC), ground water quality standards (Chapter 173-200 WAC) or sediment quality standards (Chapter 173-204 WAC). Furthermore, nothing in this Section 401 Water Quality Certification absolves the Applicant from liability for contamination and any subsequent cleanup of surface waters, ground waters, or sediments resulting from project construction or operations.

Any work that causes distressed or dying fish or discharges of oil, fuel, or other chemicals into state waters or onto land with a potential for entry into state waters is prohibited¹. If such work, conditions, or discharges occur, immediately notify² Ecology's Regional Spill Response Office at 360-407-6300 and the Washington State Department of Fish & Wildlife with the nature and details of the problem, any actions taken to correct the problem, and any proposed changes in operation to prevent further problems. You will also need to notify the Washington Emergency Management Division³ at 1-800-258-5990, for actual spills to water only. This condition is necessary to prevent oil and hazardous materials spills from causing environmental damage. The sooner a spill is reported, the quicker it can be addressed, resulting in less harm.

In view of the foregoing and in accordance with 33 U.S.C. §1341, RCW 90.48.120, RCW 90.48.260 Chapter 173-200 WAC and Chapter 173-201A WAC, this WQC is granted to the Olsen & Son Oyster Co., Olsen & Son Ongoing Aquaculture 2 project.

This Certification is not effective until the U.S. Corps of Engineers (Corps) Seattle District issues an individual Department of the Army (DA) permit for this project. Order No. **19708** will remain valid for the duration of the associated permit. Olsen & Son Oyster Co. should send a copy of the final DA permit to fednotification@ecy.wa.gov within two weeks of receiving it.

YOUR RIGHT TO APPEAL

You have a right to appeal this Order to the Pollution Control Hearing Board (PCHB) within 30 days of the date of receipt of this Order. The appeal process is governed by Chapter 43.21B RCW and Chapter 371-08 WAC. "Date of receipt" is defined in RCW 43.21B.001(2).

To appeal you must do both of the following within 30 days of the date of receipt of this Order:

- File your appeal and a copy of this Order with the PCHB (see addresses below). Filing means actual receipt by the PCHB during regular business hours.
- Serve a copy of your appeal and this Order on Ecology in paper form by mail or in person. (See addresses below.) E-mail is not accepted.

You must also comply with other applicable requirements in Chapter 43.21B RCW and Chapter 371-08 WAC.

¹ RCW 90.48

² Chapter 173-303-145

³ RCW 90.56.280
