On July 14<sup>th</sup>, 2020, Wiegardt and Sons Inc. submitted a request for a Section 401 Water Quality Certification (WQC) under the federal Clean Water Act for the Wiegardt Jensen Shellfish Farm in Pacific County, Washington. The Department of Ecology (Ecology) issued a public notice for the project on October 22<sup>nd</sup>, 2020.

This project proposes to continue operation of 89 acres of bottom Manila clam culture, 30 acres of on bottom oyster/clam culture, and 30 acres on bottom rack and pipe oyster culture. Clam beds are maintained by a light frosting of gravel that is washed twice by the supplier. Frosting with gravel will occur every 3 to 5 years. On bottom oysters are produced through both natural recruitment and hatchery-produced seed. For natural recruitment, the bed will be lightly frosted with clean oyster shell that has been aged for a minimum of 90 days. Frosting with oyster shell will occur every 3 to 5 years. Oyster harvest will be done by hand at low tide.

The project site is located on tidelands within Willapa Bay on parcel numbers 79004000042; 79004000043; 79004000086, near Ocean Park, Pacific County, Washington; Section 2, 11, Township 11N, Range 11 West; WRIA 24, Willapa Watershed.

With this Order, Ecology is granting Wiegardt and Sons Inc. request for a Section 401 Water Quality Certification for the Wiegardt Jensen Shellfish Farm project, provided that the activity is conducted in accordance with the Section 401 Water Quality Certification request Ecology received on July 14<sup>th</sup>, 2020 and the following supporting documentation:

1. E-mail letter to Ecology dated february 12<sup>th</sup>, 2021, regarding compliance with the conservation measures associated with the “Programmatic Biological Opinions for Shellfish Activities in Washington State Inland Marine Waters” (U.S. Fish and Wildlife Service (USFWS) Reference Number 01EWF00-2016-F-0121, National Marine Fisheries Service (NMFS) Reference Number WCR-2014-1502). This email also includes how water quality monitoring will be conducted.

Based on the information submitted, Ecology has determined that the discharge from the project will comply with state water quality requirements. Prior to undertaking any changes that materially alter the project, Wiegardt and Sons Inc. must contact Ecology to determine whether a new Section 401 Water Quality Certification is required.

Issuance of this Section 401 Water Quality Certification for this proposal does not authorize Wiegardt and Sons Inc. to exceed applicable state water quality standards (Chapter 173-201A WAC), ground water quality standards (Chapter 173-200 WAC) or sediment quality standards (Chapter 173-204 WAC). Furthermore, nothing in this Section 401 Water Quality Certification absolves the Applicant from liability for contamination and any subsequent cleanup of surface waters, ground waters, or sediments resulting from project construction or operations.

Any work that causes distressed or dying fish or discharges of oil, fuel, or other chemicals into state waters or onto land with a potential for entry into state waters is prohibited. If such work, conditions, or discharges occur, immediately notify Ecology's Regional Spill Response Office at 360-407-6300 and the Washington State Department of Fish & Wildlife with the nature and details of the problem, any actions taken to correct the problem, and any proposed changes in operation to prevent further problems. You will also need to notify the Washington Emergency Management Division at 1-800-258-5990, for actual spills to water only.

In view of the foregoing and in accordance with 33 U.S.C. §1341, RCW 90.48.120, RCW 90.48.260 Chapter 173-200 WAC and Chapter 173-201A WAC, this WQC is granted to the Wiegardt and Sons Inc. Wiegardt Jensen Shellfish Farm project.

This Certification is not effective until the U.S. Corps of Engineers (Corps) Seattle District issues an individual Department of the Army (DA) permit for this project. Order No. **19697** will remain valid for the duration of the associated permit. Wiegardt and Sons Inc. should send a copy of the final DA permit to [fednotification@ecy.wa.gov](mailto:fednotification@ecy.wa.gov) within two weeks of receiving it.
