Dear Halah Voges:

The Washington State Department of Ecology (Ecology) received the 2020 Groundwater Monitoring report on March 5, 2020. That report provided a proposed 2021 quarterly monitoring program. Based on previous sampling results and correspondence, Ecology approves the proposed 2021 quarterly monitoring program outlined in the 2020 Groundwater Monitoring Report. Reevaluation of the groundwater monitoring plan will occur after Ecology receives the 2021 Groundwater Monitoring Report.
