PORT ANGELES HARBOR TRUSTEE COUNCIL
RESOLUTION NO. 6

The Trustee Council consists of the Washington State Department of Ecology; the Lower Elwha Klallam Tribe; the Port Gamble S'Klallam Tribe; the Jamestown S'Klallam Tribe; the U.S. Department of the Interior, represented by the U.S. Fish and Wildlife Service; and the National Oceanic and Atmospheric Administration of the U.S. Department of Commerce.

The Trustee Council is operating under the Natural Resource Trustees Memorandum of Agreement for the Port Angeles Harbor. That MOA provides the framework for implementing joint damage assessment and restoration actions by the Trustee Council in the Port Angeles Harbor area including the Western Harbor.

As described in Section II of the MOA, the duties of the Trustee Council include, among other actions, the establishment of a process by which the Trustees will coordinate, cooperate in, and facilitate the planning, designing, implementing, maintaining, and monitoring of actions to restore, replace, or acquire the equivalent of those resources.

Pursuant to the MOA, the Trustees prepared a Draft Damage Assessment and Restoration Plan (Draft DARP) addressing restoration alternatives for the affected natural resources stemming from the activities at the Western Harbor. The Draft DARP was released for formal public review and comment on March 26, 2021, and the public comment period closed on April 26, 2021. The Trustees received comments from various members of the public during this public comment period. The Trustees considered and addressed all comments received on the Draft DARP.

The Final DARP is attached (Attachment A). It has been reviewed by each Trustee and found to represent the position of each Trustee with regard to the natural resources which were injured, lost, or destroyed as a result of the activities at the Western Harbor and the restoration actions which are necessary or appropriate to compensate the public for these losses.

Therefore, in accordance with Section IV(B)(1) of the MOA, the Trustee Council finds the attached Final DARP to be consistent with the purpose of the MOA and hereby acts, by consensus, to approve and adopt the final DARP.

NOW THEREFORE, IT IS HEREBY RESOLVED THAT:
The Trustee Council authorizes the adoption of the Final DARP and its inclusion in the Administrative Record, along with a published notice announcing its public availability.

This Resolution may be executed in counterparts. A copy with all original executed signature pages affixed shall constitute the original Resolution and be retained by the Lead Administrative Trustee.
