COMMENTS

Five USTs (gas, diesel, WO) were removed from this property in 1990. An undisclosed amount of PCS was overexcavated and landfarmed on-site. Results of confirmation soil samples collected from the excavation indicated that remaining soils were below MTCA for TPH and BTEX. No GW appeared to have been encountered during excavation. Ecology notified three different times to the owner that the site could not be RCU until the results of the landfarming were submitted and under MTCA. In 2000, Ecology changed the status of the site to RCU. In 2002, the site entered the VCP and were issued an
