

DETERMINATION OF NONSIGNIFICANCE

Description of proposal: An interim action for remediation of petroleum contaminated soil and groundwater. Soil remediation includes contaminated soil removal. Some soil may be left in place to protect site structures. A treatment system will be installed for remaining soil contamination. Groundwater treatment with oxygen releasing compound may be used.
Groundwater will be monitored to measure cleanup effectiveness.

Proponents: _____

Location of proposal, including street address if any: 106 E Moxee Avenue, Moxee, WA 98936

Lead agency: Washington State Department of Ecology

The lead agency for this proposal has determined that it does not have a probable significant impact on the environment. An environmental impact statement (EIS) is not required under RCW 43.21C.030(2)(c). This decision was made after review of a completed environmental checklist and other information on file with the lead agency. This information is available to the public on request.

- There is no comment period for this DNS.
- This DNS is issued under WAC 197-11-340(2); the lead agency will not act on this proposal for 15 days from the date below. Comments must be submitted by 2/4/13.
