November 12, 1997

Ms. Karen Kern  
Manager, Environmental Programs  
Transport International Pool, Inc.  
426 West Lancaster Avenue  
Devon, PA 19333-0950

Dear Ms. Kern:

Re: No Further Action Letter for the Petroleum Remediation at the GE Capital, Transport International Pool, Inc. Facility at 9801 Martin Luther King Jr. Way South, Seattle, WA

Thank you for submitting the results of your independent remedial action(s) for review by the State of Washington Department of Ecology (Ecology). Ecology appreciates your initiative in pursuing this administrative option under the Model Toxics Control Act (MTCA).

Ecology's Toxics Cleanup Program has reviewed the following information regarding the GE Capital, Transport International Pool Facility located at 9801 Martin Luther King Jr. Way South, Seattle, WA:

1. Independent remedial action report submitted June 11, 1997 by Dames & Moore.

The above listed reports will be kept in the Central Files of the Northwest Regional Office (NWRO) of Ecology for review by appointment only. Appointments can be made by calling the Central Files resource contact, Sally Perkins, at (425) 649-7190.

Based upon the above listed information, Ecology has determined that, at this time, the release of petroleum into the soil no longer poses a threat to human health or the environment.

Therefore, Ecology is issuing this determination that no further remedial action is necessary at this site under MTCA, chapter 70.105D RCW. However, please note that because your actions were not conducted under a consent decree with Ecology, this letter is written pursuant to RCW 70.105D.030(1)(i) and does not constitute a settlement by the state under RCW 70.105D.040(4) and is not binding on Ecology.

Ecology's no further action determination is made only with respect to the release identified in the independent remedial action report dated June 10, 1997. This no further action determination applies only to the area of the property affected by the release identified in the

report at 9801 Martin Luther King Jr. Way South, Seattle, WA. It does not apply to any other release or potential release at the property, any other areas on the property, nor any other properties owned or operated by GE Capital, Transport International Pool, Inc.

Ecology will update its database to reflect this "No Further Action" determination. Your site will not appear in future publications of the Confirmed & Suspected Contaminated Sites Report (previously known as the Affected Media and Contaminants Report.)

The state, Ecology, and its officers and employees are immune from all liability and no cause of action of any nature may arise from any act or omission in providing this determination.

If you have any questions, please contact Gail Colburn at (425) 649-7058.

Sincerely,

Gail C. Colburn  
Toxics Cleanup Program
