2000 012 5001283

11. Confirmation Ground Water Sampling, Second Quarter 1999, Grady Way Complex Property, Renton, Washington - July 22, 1999. By GeoEngineers, Project No. 0186-407-00-1150/72299.
12. Supplemental Site Characterization and Remedial Activities, Grady Way Complex Property, Renton, Washington - November 17, 1999. By GeoEngineers, Project No. 0186-407-00-1150/111799
13. Confirmation Ground Water Sampling, Third Quarter 1999, Grady Way Complex Property, Renton, Washington - December 21, 1999. By GeoEngineers, Project No. 0186-407-00-1150/122199.
14. Confirmation Ground Water Sampling, Fourth Quarter 1999, Grady Way Complex Property, Renton, Washington - November 24, 1999. By GeoEngineers, Project No. 0186-407-00-1150/112499.

This Restrictive Covenant is required because the Remedial Action resulted in leaving residual dissolved petroleum hydrocarbon and arsenic concentrations in groundwater which exceed the Model Toxics Control Act Method A Residential Cleanup Levels for groundwater established under WAC 173-340-740.

The undersigned, Puget Western, Inc., is the fee owner of real property (hereafter "Property") in the County of King, State of Washington, that is subject to this Restrictive Covenant. The Property is commonly known as Parcel 1 of the former Puget Sound Energy Grady Way Complex site (see attached map) and is legally described in exhibit A-1 (attached).

Puget Western, Inc., makes the following declaration as to limitations, restrictions, and uses to which the Property may be put and specifies that such declarations shall constitute covenants to run with the land, as provided by law and shall be binding on all parties and all persons claiming under them, including all current and future owners of any portion of or interest in the Property (hereafter "Owner")

Section 1. The Property contains residual dissolved petroleum hydrocarbon and arsenic concentrations in groundwater which exceed the Model Toxics Control Act Method A Residential Cleanup Levels for groundwater. During at least one past ground water monitoring event, dissolved petroleum hydrocarbons have been detected in monitoring wells GMW-2/2a, GMW-12/12a, and GMW-17 (see attached map); dissolved arsenic has been detected in MW-4 and GMW-12/12a.

Section 2. No groundwater may be taken from the Property for any use.

Section 3. Any activity on the Property that may interfere with the integrity of the Remedial Action and continued protection of human health and the environment is prohibited.

Section 4. Any activity on the Property that may result in the release or exposure to the environment of a hazardous substance that remains in ground water beneath the Property as part of the Remedial Action, or create a new exposure pathway, is prohibited without prior written approval from Ecology.

Section 5. The Owner of the property must give thirty (30) day advance written notice to Ecology of the Owner's intent to convey any interest in the Property. No conveyance of title, easement, lease, or other interest in the Property shall be consummated by the Owner without adequate and complete provision for continued monitoring, operation and maintenance of the Remedial Action. The Owner conveying any interest in the property shall notify Ecology of the name, mailing address and telephone number of the person or persons who acquired the title, easement, lease, or other interest in the Property within fifteen (15) days of the transaction.

Section 6. The Owner must restrict leases to uses and activities consistent with the Restrictive Covenant and notify all lessees of the restrictions on the use of the Property.

Section 7. The Owner must notify and obtain approval from Ecology prior to any use of the Property that is inconsistent with the terms of this Restrictive Covenant. Ecology may approve any inconsistent use only after public notice and comment.

Section 8. The Owner shall allow authorized representatives of Ecology the right to enter the Property at reasonable times for the purpose of evaluating the Remedial Action; to take samples, to inspect remedial actions conducted at the property, and to inspect records that are related to the Remedial Action.

Section 9. The Owner of the Property reserves the right under WAC 173-340-440 to record an instrument that provides that this Restrictive Covenant shall no longer limit use of the Property or be of any further force or effect. However, such an instrument may be recorded only if Ecology, after public notice and opportunity for comment, concurs.
