Re: Approval of Cleanup Action Implementation, Engineering Design Report, *Ex-situ* Soil Vapor Extraction Memorandum:

- **Site Name:** Warden City Water Supply Wells No. 4 and 5
- **Site Address:** 1900 Block W 1st St Warden, WA 98857
- **Cleanup Site ID:** 1618
- **Facility/Site ID:** 2802409

Dear Molly Dimick:

Thank you for submitting the Engineering Design Report (EDR) addendum for the *ex-situ* soil vapor extraction (SVE) in a memorandum dated May 24 2021, to implement the Cleanup Action at this Site in accordance with the final Cleanup Action Plan (CAP) and Agreed Order No. 16890. Ecology submitted comments on the memorandum to JR Simplot Co. (Simplot) on June 15, 2021.

Ecology, Simplot, and HDR held an on-line meeting on June 28, 2021 to discuss the comments. As a follow-up from the meeting, Simplot submitted a revised memorandum on June 30, 2021 addressing Ecology's comments. Hence, Ecology has no further comments and Ecology concurs that the *ex-situ* SVE remediation can proceed as described in the two memoranda dated May 24 and June 30, 2021.

As discussed during the meeting on June 28, 2021, Ecology requested a memorandum showing the layout and final design of the completed *ex-situ* SVE treatment cells. Please provide Ecology with the as-built construction details as soon the cells have been constructed, the associated equipment such as blowers and controls have been installed, and the pilot test has been completed successfully.
