**RE: Groundwater Sampling – Agri-Tech Yakima Steel Fabricators Site, FSID: 479**

Dear Merv Wark:

The Washington Department of Ecology (Ecology) is continuing the Yakima Railroad Area groundwater-monitoring project. As part of this investigation, Ecology's Environmental Assessment Program will be conducting groundwater sampling for the Yakima Railroad Area between October 18 and October 22, 2021.

Samples will be analyzed for tetrachloroethylene, breakdown products, and general water quality parameters. Results will be available to you once Ecology receives them, upon your request. Please consider this letter to be a formal property access notice for an Ecology representative.

If you have any questions, please contact me at (509) 454-7833 or (509) 406-6959 or by email at [Kyle.Parker@ecy.wa.gov](mailto:Kyle.Parker@ecy.wa.gov).

Sincerely,

Kyle Parker  
Site Manager  
Toxics Cleanup Program  
Central Regional Office
