

WAC 197-11-970 Determination of non-significance (DNS).

DETERMINATION OF NONSIGNIFICANCE

Description of proposal:

The Riverside Site is currently in the RI process with one interim action for petroleum contaminated soil already completed in 2010. Ecology requested another interim action to address chlorinated solvents / halogenated volatile organic compounds (HVOCs) in ground water discharging to the Sammamish River at the Riverside property. The interim action will consist of installing extraction wells along the southern property line, extracting/pumping the contaminated groundwater, treating it and discharging it to the sanitary sewer.

Proponent: City of Bothell

Location of proposal, including street address, if any The project is located within the City of Bothell's historic downtown area, approximately 200 feet southwest of the main intersection with SR522, Bothell Way NE and Main Street.

Lead agency: State of Washington Department of Ecology

The lead agency for this proposal has determined that it does not have a probable significant adverse impact on the environment. An environmental impact statement (EIS) is not required under RCW 43.21C.030 (2)(c). This decision was made after review of a completed environmental checklist and other information on file with the lead agency. This information is available to the public on request.

- There is no comment period for this DNS.
- This DNS is issued after using the optional DNS process in WAC 197-11-355. There is no further comment period on the DNS.
- This DNS is issued under WAC 197-11-340(2); the lead agency will not act on this proposal during public comment period from March 1, 2013 to April 1, 2013.
