Re: SITE HAZARD ASSESSMENT: Facility Site ID 2130
Houghton Landfill King County Solid Waste
11724 NE 60th St, Kirkland, King County, WA 98033
Cleanup Site ID 824

Dear Pat McLaughlin:

The Washington State Department of Ecology (Ecology) is writing to inform you that the above referenced property was subject to a site hazard assessment (SHA) as required under the Model Toxics Control Act, on 5/11/22. The site's hazard ranking, an estimation of the potential threat to human health and/or the environment relative to all other Washington state sites assessed at this time, has been determined by Ecology to be a 5, where a 1 represents the highest relative risk and 5 the lowest.

For your information, Ecology will be publishing ranking of this, and other recently assessed sites, in the August 2022 Special Issue of the Site Register. The hazard ranking will be used in conjunction with other considerations in determining Ecology's priority for future action at this site. This report is available on Ecology's [Houghton Landfill King County Solid Waste](#) webpage.

For inquiries regarding what may occur with your site now that it is on Ecology's Hazardous Sites List please contact me at (206) 594-0105 or donna.musa@ecy.wa.gov.

Sincerely,

Donna Musa
