

Department Decision Recommendation

RE: UST # 11411

Site: Providence Yakima Medical Center

City: Yakima

County: Yakima

In keeping with the requirement of WAC 173-340-310 (4) I recommend that this site receive a No Further Action determination because a release of a hazardous substance has occurred, but in the department's judgment, does not pose a threat to human health or the environment.

Supporting Criteria:

Based on the LUST File Review dated March 12, 2003, this site is eligible for a No Further Action determination. Please refer to the file review for a summary of site conditions.

This Department Decision Recommendation should be reviewed and re-evaluated based on any new information about these sites.

Site Assessment and site Closure Engineering Report on Underground
Storage Tank Removal for St Elizabeth Medical Center, Yakima,
Washington, PLSA, March 1992 (reviewed but not applicable to this site
ID)

Summary: Two underground storage tanks were removed. Residual contamination
was left in place near the boiler room building building. The contaminant
levels left on site were below 400 ppm TPH (assumed to be bunker oil).

Comment: None

Action: None

Conclusion: The site status will be changed to "Reported Cleaned Up"
