Washington State Department of Ecology Toxics Cleanup Program

For completion by Ecology only	Facility/Site Name: Corner Court The Eight Bellevue
	Facility/Site No.: 11652
	VCP Project No.: NW3341

Instructions

Submit this Agreement (original) to Ecology as part of your Application. Before submitting, enter the Customer's name and the Site's address on the first page, and sign the Agreement on the second page. If your Application is accepted, then Ecology will do the following: 1) identify the Site and VCP project in the box below; 2) sign the Agreement; and 3) send you a copy of the completed Agreement.

This document constitutes an Agreement between the State of Washington Department of Ecology (Ecology) and SCD NE8th LLC (Customer) to provide informal site-specific technical consultations under the Voluntary Cleanup Program (VCP) for the Site identified below and associated with the following address: 10770 (formerly 10630) NE 8th Street, Bellevue, Washington.

The purpose of this Agreement is to facilitate independent remedial action at the Site. Ecology is entering into this Agreement under the authority of the Model Toxics Control Act (MTCA), chapter 70A.305 RCW, and its implementing regulations, chapter 173-340 WAC. If a term in this Agreement is defined in MTCA or chapter 173-340 WAC, then that definition shall govern.

Services Provided by Ecology

Upon request, Ecology agrees to provide the Customer informal site-specific technical consultations on the independent remedial actions proposed for or performed at the Site consistent with WAC 173-340-515(5). Those consultations may include assistance in identifying applicable regulatory requirements and opinions on whether the remedial actions proposed for or conducted at the Site meet those requirements.

Ecology may use any appropriate resource to provide the Customer with the requested consultative services. Those resources may include, but shall not be limited to, those of Ecology and the Office of the Attorney General. However, Ecology shall not use independent contractors unless the Customer provides Ecology with prior written authorization.

In accordance with RCW 70A.305.170, any opinions provided by Ecology under this Agreement are advisory only and not binding on Ecology. Ecology, the state, and officers and employees of the state are immune from all liability. Furthermore, no cause of action of any nature may arise from any act or omission in providing, or failing to provide, informal advice and assistance under the VCP.

Payment for Services by Customer

The Customer agrees to pay all costs incurred by Ecology in providing the informal site-specific technical consultations requested by the Customer consistent with WAC 173-340-515(6) and 173-340-550(6). Those costs may include the costs incurred by attorneys or independent contractors used by Ecology to provide the requested consultative services. Ecology's hourly costs shall be determined based on the method in WAC 173-340-550(2).

Ecology shall mail the Customer a monthly itemized statement of costs (invoice) by the tenth day of each month (invoice date) that there is a balance on the account. The invoice shall include a summary of the costs incurred, payments received, identity of staff involved, and amount of time staff spent on the project.

The Customer shall pay the required amount by the due date, which shall be thirty (30) calendar days after the invoice date. If payment has not been received by the due date, then Ecology shall withhold any requested opinions and notify the Customer by certified mail that the debt is past due.

If payment has not been received within sixty (60) calendar days of the invoice date, then Ecology shall stop all work under the Agreement and may, as appropriate, assign the debt to a collection agency under chapter 19.16 RCW. The Customer agrees to pay the collection agency fee incurred by Ecology in the course of debt collection.

Reservation of Rights / No Settlement

This Agreement does not constitute a settlement of liability to the state under MTCA. This Agreement also does not protect a liable person from contribution claims by third parties for matters addressed by the Agreement. The state does not have the authority to settle with any person potentially liable under MTCA except in accordance with RCW 70A.305.040(4). Ecology's signature on this Agreement in no way constitutes a covenant not to sue or a compromise of any Ecology rights or authority.

Ecology reserves all rights under MTCA, including the right to require additional or different remedial actions at the Site should it deem such actions necessary to protect human health and the environment, and to issue orders requiring such remedial actions. Ecology also reserves all rights regarding the injury to, destruction of, or loss of natural resources resulting from the release or threatened release of hazardous substances at the Site.

Effective Date, Modifications, and Severability

The effective date of this Agreement shall be the date on which this Agreement is signed by the Toxics Cleanup Program's Section Manager or delegated representative. This Agreement may be amended by mutual agreement of Ecology and the Customer. Amendments shall be in writing and shall be effective when signed by the Toxics Cleanup Program's Section Manager or delegated representative. If any provision of this Agreement proves to be void, it shall in no way invalidate any other provision of this Agreement.

Termination of Agreement

Either party may terminate this Agreement without cause by sending written notice by U.S. mail to the other party. The effective date of termination shall be the date Ecology sends notice to the Customer or the date Ecology receives notice from the Customer, whichever occurs first. Unless otherwise directed, issuance of a No Further Action opinion, either for the Site as a whole or for a portion of the real property located within the Site, shall constitute notice of termination by Ecology.

Under this Agreement, the Customer is only responsible for costs incurred by Ecology before the effective date of termination. However, termination of this Agreement shall not affect any right Ecology may have to recover its costs under MTCA or any other provision of law.

Representations and Signatures

The undersigned representative of the Customer hereby certifies that he or she is fully authorized to enter into this Agreement and to execute and legally bind the Customer to comply with the Agreement.

Voluntary Cleanup Program

Washington State Department of Ecology Toxics Cleanup Program

Agency Determination Checklist

How to use this checklist

This checklist helps you determine which Washington State technical assistance program to apply for:

- **Department of Ecology** (Ecology)
 - Voluntary Cleanup Program (VCP)

- **Pollution Liability Insurance Agency** (PLIA)
 - Petroleum Technical Assistance Program (PTAP)
 - Heating Oil Technical Assistance Program (HOTAP).

Determination verification (for use by Ecology)	
<input type="checkbox"/>	correct
<input type="checkbox"/>	incorrect

Ecology will not accept VCP applications for independent cleanup projects eligible for a PLIA program. PLIA provides technical assistance for releases of petroleum or heating oil from tank systems. PLIA is a separate agency and not an Ecology program.

This determination does not guarantee acceptance into the VCP. Ecology may decide to supervise remedial action at the site under an order or decree, based on site-specific conditions.

What these programs provide

Ecology and PLIA may provide informal, site-specific, technical consultations for independent cleanup actions. Each can provide such consultations under the Model Toxics Control Act (MTCA), chapter 70A.305 RCW, and its implementing regulations chapter 173-340 WAC and RCW 70A.330.040(9).

Applying to Ecology’s VCP

You can apply for one of two VCP processes: Standard VCP process and Expedited VCP process. The eligibility requirements for the Standard VCP process and Expedited VCP process are listed on the [Standard VCP webpage](#)¹ and the [Expedited VCP webpage](#),² respectively.

1. **Standard VCP process:** Complete your Standard VCP application, which **must** include all required materials listed in the VCP application form, following its instructions. Submit your completed application to the appropriate Ecology regional office, based on your site’s [county](#).³

2. **Expedited VCP process:** Complete your Expedited VCP application, which **must** include all required materials listed in the VCP application form, following its instructions. Subscribe to the Expedited VCP [email list](#) to receive notices and updates of when Ecology opens or closes its application periods.

² <https://ecology.wa.gov/Spills-Cleanup/Contamination-cleanup/Voluntary-Cleanup-Program/VCP-Expedited>

³ <https://ecology.wa.gov/About-us/Get-to-know-us/Contact-us/Regional-contacts>

Applying to PLIA's HOTAP or PTAP

Follow PLIA's application instructions on the [PLIA website](#)⁴ when applying for HOTAP or PTAP.

Part 1 - Administration

1.A. Fill in the applicant name and application submission date:

Applicant name: SCD NE8th LLC

Application submission date: 4/26/2022

1.B. Final agency determination of eligibility

Complete this [Part 1.B](#), after reviewing site eligibility in **Parts 2 through 6** in this form:

- Apply for Ecology's VCP
- Apply for PLIA's PTAP or HOTAP

Part 2 – Non-heating oil petroleum tank release sites

PLIA has responsibility for some non-heating-oil petroleum tank release sites (i.e., storage tank systems that contain petroleum or a mixture of petroleum with de minimus quantities of other substances) meeting inclusionary/exclusionary factors developed jointly by Ecology and PLIA, in accordance with RCW 70A.330.040(9).

Non-heating-oil petroleum includes, but is not limited to, petroleum and petroleum-based substances comprised of a complex blend of hydrocarbons, such as motor fuels, jet fuels, distillate fuel oils, residual fuel oils, lubricants, petroleum solvents, and used/waste oils.

Non-heating-oil petroleum does **not** include propane, asphalt, or other petroleum products that are not liquid at standard conditions of temperature and pressure.

- Site is a non-heating-oil petroleum storage tank release site.

If you checked this box, move to [Part 4](#). Otherwise, **STOP**. Apply for Ecology's VCP.

Part 3 – Heating oil tank release sites

As of July 23, 2017, Ecology and PLIA policies dictate that independent remedial actions at heating oil tank release sites can best serve Washington residents, and provide greater flexibility and capacity for cleanup of contaminated sites, when conducted under PLIA's HOTAP.

Heating oil includes petroleum products used for space heating in oil-fired furnaces, heaters, and boilers, and includes stove oil, diesel fuel, or kerosene.

Heating oil does **not** include petroleum products used as fuels in motor vehicles, marine vessels, trains, buses, aircraft, or any off-highway equipment not used for space heating, or for industrial processing, or generating electrical energy.

⁴ plia.wa.gov

3.A. Heating oil tank release sites

PLIA is responsible for heating oil tank release sites, with the exception of sites that meet both requirements in [Part 3.B](#).

- This site is an abandoned, active, or decommissioned heating oil tank release site (including tanks above ground, below ground, or in a basement).

If you checked this box, move to [Part 3.B](#). Otherwise, skip to [Part 4](#).

3.B. Comingled contamination

If comingled contamination exists at your site, your site is no longer considered a heating oil tank release site, but you may apply for Ecology's VCP or PLIA's PTAP.

- Comingled contamination exists at your site.

If you checked this box, move to [Part 4](#). Otherwise, skip to [Part 3.C](#).

3.C. Heating oil tank release site exemptions

Ecology and PLIA may agree to allow Ecology to make heating oil tank release site determinations for releases that involve sites already being cleaned up under Ecology's authority.

- The heating oil tank release occurred at a site already being cleaned up under Ecology's authority.
- Ecology and PLIA have agreed that Ecology can make a heating oil tank release site determination for this site.

If you checked either box, **STOP**. Apply for Ecology's VCP.

If you did **not** check either box, **STOP**. Visit [PLIA's website](#) to apply for HOTAP.

Part 4 – Inclusionary factors

Ecology and PLIA have jointly developed inclusionary factors for non-heating-oil petroleum tank release sites. If a non-heating-oil petroleum tank release site meets any of the factors in [Parts 4.A](#) and [4.B](#), you may apply for PLIA's PTAP (depending on results from completing [Part 5](#)).

4.A. Ranking and inclusionary factors

The following inclusionary factors are based on the [Washington Ranking Method \(WARM\) Scoring Manual](#).⁵

- The site has been ranked a 3, 4, or 5, based on a WARM Site Hazard Assessment.
- The site has been ranked a 1 or 2, based on a WARM Site Hazard Assessment but does not include complete surface water or sediment contamination pathways.

If you checked either box, move to [Part 5](#).

If you did not check either box (site has not been ranked), move to [Part 4.B](#).

5

<https://fortress.wa.gov/ecy/publications/SummaryPages/90014.html><https://fortress.wa.gov/ecy/publications/SummaryPages/90014.html>

4.B. Funding and site type factors

The following inclusionary factors represent applicable factors that may apply, regardless of a site's WARM ranking.

1. Funding factors – the site is:

- covered by PLIA insurance
- a recipient of a PLIA grant or loan.

2. Site type factor

- The site involves a release from non-heating-oil petroleum storage tank system(s) and does not include surface water or sediment contamination pathways.

If you checked any of these boxes, move to [Part 5](#).

If you did **not** check any of these boxes, **STOP**. Apply for Ecology's VCP.

Part 5 – Exclusionary factors

Ecology and PLIA have jointly developed exclusionary factors for non-heating-oil petroleum release tank sites. If a non-heating-oil petroleum release tank site meets any of the exclusionary factors in [Part 5](#), apply for Ecology's VCP. Your project may not be eligible for PLIA's PTAP, unless the conditions stated in [Part 5.B](#) are met.

5.A. Location, legal, funding, VCP, and site type factors

1. Location factors – the site is within the bounds of or impacting:

- a U.S. Environmental Protection Agency Superfund site
- an Ecology Nuclear Waste Program-managed site
- an Ecology Industrial Section site
- an Ecology Hazardous Waste Toxics Reduction Program Dangerous Waste site.

2. Legal factors

- A potentially liable party (PLP) dispute about liability is in progress.
- Other litigation regarding your site, such as court supervision or agreed order, is in progress.
- The site is being remediated under an active control between Ecology and the PLP.

3. Funding factors

- Site remediation is funded, with Ecology as the sole or leading funding agency.
- The applicant is a local government planning to apply for an Independent Remedial Action Grant from Ecology. For information about the grant program, including cultural resource consultation requirements, visit our [Independent remedial action grants webpage](#)⁶.

⁶ <https://ecology.wa.gov/About-us/How-we-operate/Grants-loans/Find-a-grant-or-loan/Independent-remedial-action-grants>

- Other litigation regarding your site, such as court supervision or agreed order, is in progress.
- The site is being remediated under an active control between Ecology and the PLP.

4. Site type factors

- The site has known impacts to surface water or sediment.
- The site consists of comingled non-petroleum and non-incidentals contaminants not related to the operations of the site (including contaminant migration from off site).

If you checked any of these boxes, move to [Part 5.B](#).

If you did **not** check any of these boxes, **STOP**. Visit [PLIA's website](#) to apply for PTAP.

5.B. Site characterization exemption

Ecology and PLIA may jointly override other exclusionary factors, based on the results of site characterization, in accordance with MTCA.

- Exclusionary factors identified in [Part 5.A](#) have been overridden by a joint decision between Ecology and PLIA, based on the results of a site characterization, in accordance with MTCA. **If applicable, include supporting documentation.**

If you checked this box, **STOP**. Visit [PLIA's website](#) to apply for PTAP.

If you did not check this box, **STOP**. Apply for Ecology's VCP. This determination does not guarantee acceptance into the VCP. Based on site-specific information, we may decide to supervise remedial action at the site under an order or decree.

Part 6 – Check that box

After completing all the required parts of this form, go back to the top of the form, and **check** the appropriate eligibility box in [Part 1.B](#).
