RAT ABATEMENT CERTIFICATION

For compliance with Seattle Building Code 3303.15 and Seattle Residential Code R107.12

PROJECT INFORMATION

SDCI demolition permit no. _____

Site Address: 2737 W Commodore Way, Seattle, WA 98199

Name of Licensed Pest Control Company: Iliad Pest Management LLC

Company Phone number: (206) 280 2521

License No. of Company: 77686

This certification must be signed by a representative of the licensed pest control company that is conducting rat abatement on the site.

I hereby certify that:

- My firm, as shown above, has a contract for rat abatement at the noted site address.
 - We began rat abatement on this date: 03/15/2021 (at least 15 days prior to the start of demolition)
 - Our most recent monitoring inspection occurred on this date: 03/31/2021
 - The rat abatement program complies with any guidelines and recommendations adopted by the Seattle King County Public Health Department or the Washington State Department of Agriculture for rat abatement and the use of pesticides.
 - Our contract for rat abatement services will operate until demolition begins.

Signed: 

Date: 03/31/2021

Print Name: Ulises Herrera

Title: Owner

Present this form in hard copy to the SDCI Site Inspector at your 1st Ground Disturbance inspection.

Form last revised: May 13, 2019

- (1) I certify that the information I have provided is to the best of my knowledge true and accurate.
(2) I understand that I must file an Amendment to this Notification if:

- The type of project has changed. The project types are asbestos and demolition.
- The quantity of friable asbestos to be removed meets a larger project category.
- The project's start or completion date has changed.

(3) I understand one Notification must be filed for each structure. The only exception is for a single-family residence that includes multiple ancillary structures, such as a detached garage or other outbuildings having the same street address. If there is no street address, I have used a building number.

(4) I understand the fees for this Notification are nonrefundable.

* Samples are analyzed in accordance with the NIOSH 7400 (Issue 3; 14 June 2019). If the samples were not collected by NVL Laboratories, then the accuracy of the results is limited by the methodology and acuity of the sample collector. The LOQ, Limits of Quantification, are the fiber concentrations, for the given volume of the sampled air, above and below which the results may be unreliable. The RL, Reporting Limit defined in Method 7400 as LOD, is the fibers/cc below which the results may not be confidently distinguished from background levels. This report relates only to the items tested. It shall not be reproduced, except in full, without written approval of NVL Laboratories, Inc. . Unless otherwise indicated, the condition of all samples was acceptable at time of receipt. Intralaboratory (Sr) Values are as follows: Low(0.34); Medium(0.25); High (0.13);

* Samples are analyzed in accordance with the NIOSH 7400 (Issue 3: 14 June 2019). If the samples were not collected by NVL Laboratories, then the accuracy of the results is limited by the methodology and acuity of the sample collector. The LOQ, Limits of Quantification, are the fiber concentrations, for the given volume of the sampled air, above and below which the results may be unreliable. The RL, Reporting Limit defined in Method 7400 as LOD, is the fibers/cc below which the results may not be confidently distinguished from background levels. This report relates only to the items tested. It shall not be reproduced, except in full, without written approval of NVL Laboratories, Inc. . Unless otherwise indicated, the condition of all samples was acceptable at time of receipt. Intralaboratory (Sr) Values are as follows: Low(0.34); Medium(0.25); High (0.13);

* Samples are analyzed in accordance with the NIOSH 7400 (Issue 3: 14 June 2019). If the samples were not collected by NVL Laboratories, then the accuracy of the results is limited by the methodology and acuity of the sample collector. The LOQ, Limits of Quantification, are the fiber concentrations, for the given volume of the sampled air, above and below which the results may be unreliable. The RL, Reporting Limit defined in Method 7400 as LOD, is the fibers/cc below which the results may not be confidently distinguished from background levels. This report relates only to the items tested. It shall not be reproduced, except in full, without written approval of NVL Laboratories, Inc. . Unless otherwise indicated, the condition of all samples was acceptable at time of receipt. Intralaboratory (Sr) Values are as follows: Low(0.34); Medium(0.25); High (0.13);

Certification Statement

We certify that the above described cement, at the time of shipment, meets the chemical and physical requirements of applicable Specifications for Type MH per Mill Certification number TerraFlow75_SEPTEMBER 2021. A copy of the mill certificate can be downloaded from <https://www.seattleconcretelab.net/mill-cert/>

Shipping Instruction

Received, subjected to the classification and lawfully filed tariffs in effect on the date of issue of this Bill of Lading, the property described above, in good order, except as noted (contents and condition of packages own), marked, consigned as indicated below, which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to the usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. See Article 1.D on the reverse side hereof for definitions of U.S. Sales and Canadian Sales respectively. It is mutually agreed, as to each carrier of all or any of said property over all or any portion of said route to destination, and as each party, at any time interested in all or any of said property, that every service to be performed here under shall be subjected for all U.S. Sales to all the terms and conditions of Uniform Domestic Straight Bill of Lading set forth (1) in Uniform Freight Classification in effect on the date hereof, if this is rail or rail-water shipment, or (2) in the applicable motor carrier classification or tariff if this is a motor carrier shipment and for all Canadian Sales to all the following terms and conditions: (1) approved by the Board of Transport Commissioners for Canada by general order No. 1-5, dated February 1, 1986 and in effect on December 21, 1987 set forth in the Canadian Freight Classification and also available at all railway agency stations and freight offices upon request, when said goods are carried by a rail carrier, or (3) of the bill of lading or the water carrier as provided in its tariff of rules and regulations when said goods are carried by a water carrier, or (4) of the bill of lading set forth in or prescribed by the relevant tariffs, classification, statutes and regulations pertaining to motor carriers services when said goods are carried by a motor carrier, or (4) of the bill of lading described by O.C. 986-79, April 4, 1979, when the said goods originating in Quebec are to be carried by a motor carrier; (5) for approved by the Board of Transport Commissioners for Canada by general order No. 1-43, set forth in the Rules for the Carriage of Express and Non-carload Freight Traffic and also available at all express and railway agency stations and express and freight offices upon request, when said goods are carried by a rail carrier and which are agreed to by the shipper and accepted for himself and his assigns. Shipper hereby certifies that it is familiar with all the terms and conditions of said bill of lading including those on the back thereof, set forth in the classification or tariff which govern the transportation of this shipment, and the said terms and conditions are hereby agreed to by the shipper and accepted for itself and its assigns.

For U.S. Sales, if the shipment moves between two ports by carrier by water, the law requires that the bill of lading shall state whether it is carrier's or shipper's weight. If the shipment moves by rail, the description and weight indicated on this bill of lading are correct, subjected to verification by the individual railroad or Western Weighing Bureau, whichever has jurisdiction according to agreement.

For U.S. Sales, the paper bags used for this shipment conform to the specifications and rules set forth in the governing Rail and Motor classifications.

* = Manual Weights

Loaded By: Michael Lou

Subjected to section 7 of conditions, of applicable bill of lading, if this shipment is to be delivered to consignee without recourse of consignor, the consignor shall sign the following statement.

Driver

The carrier shall not make delivery of the shipment without payment of freight and all other lawful charges

Customer

(Signature of consignor)

Certification Statement

We certify that the above described cement, at the time of shipment, meets the chemical and physical requirements of applicable Specifications for Type MH per Mill Certification number TerraFlow75_OCTOBER 2021. A copy of the mill certificate can be downloaded from <https://www.seattleconcretelab.net/mill-cert/>

Shipping Instruction

Received, subjected to the classification and lawfully filed tariffs in effect on the date of issue of this Bill of Lading, the property described above, in good order, except as noted (contents and condition of packages own), marked, consigned as indicated below which said carrier (the word carrier being understood throughout this contract as meaning any person or corporation in possession of the property under the contract) agrees to carry to the usual place of delivery at said destination, if on its route, otherwise to deliver to another carrier on the route to said destination. See Article 11 D on the reverse side hereof for definitions of U.S. Sales and Canadian Sales respectively. It is mutually agreed, as to each carrier of all or any of said property over all or any portion of said route to destination, and as each party at any time interested in all or any of said property, that every service to be performed here under shall be subjected for all U.S. Sales to all the terms and conditions of Uniform Domestic Straight Bill of Lading set forth (1) in Uniform Freight Classification in effect on the date hereof, if this is rail or rail-water shipment, or (2) in the applicable motor carrier classification or tariff if this is a motor carrier shipment and for all Canadian Sales to all the following terms and conditions: (1) approved by the Board of Transport Commissioners for Canada by general order No. T-5, dated February 1, 1986 and in effect to December 31, 1987 set forth in the Canadian Freight Classification and also available at all railway agency stations and freight offices upon request, when said goods are carried by a rail carrier, or (2) of the bill of lading of the water carrier as provided in its tariff of rules and regulations when said goods are carried by a water carrier, or (3) of the bill of lading set forth in or prescribed by the relevant tariffs, classification, statutes and regulations pertaining to motor carrier's services when said goods are carried by a motor carrier, or (4) of the bill of lading described by O.C. 986-79, April 4, 1979, when the said goods originating in Quebec are to be carried by a motor carrier, (5) or approved by the Board of Transport Commissioners for Canada by general order No. T-43, set forth in the Rules for the Carriage of Express and Non-carload Freight Traffic and also available at all express and railway agency stations and express and freight offices upon request, when said goods are carried by a rail carrier and which are agreed to by the shipper and accepted for himself and his assigns. Shipper hereby certifies that it is familiar with all the terms and conditions of said bill of lading including those on the back thereof, set forth in the classification or tariff which govern the transportation of this shipment, and the said terms and conditions are hereby agreed to by the shipper and accepted for itself and its assigns.

For U.S. Sales, if the shipment moves between two ports by carrier by water, the law requires that the bill of lading shall state whether it is carrier's or shipper's weight. If the shipment moves by rail, the description and weight indicated on this bill of lading are correct, subjected to verification by the individual railroad or Western Weighing Bureau, whichever has jurisdiction according to agreement

For U.S. Sales, the paper bags used for this shipment conform to the specifications and rules set forth in the governing Rail and Motor classifications

* = Manual Weights

Loaded By: Dale Ryker

Subjected to section 7 of conditions, of applicable bill of lading, if this shipment is to be delivered to consignee without recourse of consignor, the consignor shall sign the following statement:

Driver

The carrier shall not make delivery of the shipment without payment of freight and all other lawful charges

Customer
