**Re: Sampling access request for the following property:**

- **Site Name:** Yakima Dry Cleaner
- **Site Address:** 2904 W. Nob Hill Blvd, Yakima
- **Facility/Site No.:** 98634292
- **Cleanup Site No.:** 16550
- **Parcel No.:** 181326-32433

Dear Dennis Heeb:

The Washington State Department of Ecology (Ecology) has secured funding to collect environmental samples from a number of sites in the Central Region. The Yakima Dry Cleaner property has been selected as a sampling candidate.

Currently, we have a report that describes the limited soil sampling performed by CH2M Hill. This information alone is insufficient to close out the site. Thus, the site status is listed in our database as 'awaiting cleanup'. The collection of additional data may change that status.

Please return a signed copy of the attached access agreement. Our contractor is well versed in performing this work at the level of quality Ecology expects. Also, to help with communication, please provide your contact information such as an email address and/or telephone number.

Ecology will notify you after our contractor has established the estimated start of work and then give updates as the schedule develops. Generally, we expect to begin sampling the various sites within the next several months.
