Re: Sampling access request for the following property:

- Site Name: Ag Supply Company of Wenatchee
- Site Address: 1115 N. Wenatchee Avenue, Wenatchee
- F/S ID No.: 16422326
- Cleanup Site No.: 4144
- Parcel No.: 27160

Dear Registered Agent/Secretary:

The Washington State Department of Ecology (Ecology) has secured funding to collect environmental samples from a number of sites in the Central Region. Ecology has selected your property as a candidate that will likely close out with further sampling data.

In June 2000, West Central Environmental Consultants performed limited remedial actions related to a surface spill of diesel. Their report did not provide sufficient information for us to close the site out with a 'No Further Action' determination, thus, the site is still listed in our database as 'cleanup started'. Ecology's recent review of the site information indicates that this site will likely close out with updated sampling data.

You can find out more information about the site in our cleanup and tank search database at Ecology's cleanup site website.¹

Please return a signed copy of the attached access agreement. Our contractor is well versed in performing this work at the level of quality Ecology expects.

Ecology will provide you with a notification after our contractor has established the estimated start of work. Generally, we expect to begin sampling the various sites within the next several months. Ecology will provide you with updates as the schedule develops.

Call me at (509) 731-9613 or email me at John.Mefford@ecy.wa.gov, if you have any questions regarding this letter.

Sincerely,

John Mefford
Cleanup Project Manager/Hydrogeologist
Toxics Cleanup Program
