RE: Ecology Review and Approval of Technical Memorandum – Remediation System Testing

- **Site Name: Whitney's Chevrolet**
- **Site Address: 123 West Pioneer Ave, Montesano, Grays Harbor County, WA 98563**
- **Facility/ Site ID: 36813164**
- **Cleanup Site ID: 5963**

Dear Mr. Thomas Morin (Project Coordinator),

TRC, the environmental consultant for this project, prepared a "Technical Memorandum – Remediation System Testing", dated January 25, 2023, to propose modifications to the existing air sparge/soil vapor extraction (AS/SVE) system in order to achieve the remedial action objectives outlined in the CAP and to comply with the intent of the AO. This work is being done under Agreed Order No. 11121 between Ecology and Whitney's Chevrolet, Inc., Caldwell Family Holdings, LLC, and Wynoochee Lodge #43, F & AM (the PLPs) and in compliance with the Model Toxics Control Act, Chapter 70.105D RCW.

Ecology has reviewed the Technical Memorandum – Remediation System Testing for the Whitney's Chevrolet Site and is approving the recommendations within that evaluation. The recommended modifications to the AS/SVE system include adding up to five additional AS wells, converting five existing monitoring wells to deep SVE wells, and installation preventative short-circuiting barriers. The full details of the proposed remedial approach can be found within the aforementioned Technical Memorandum.

If you have any questions regarding this approval, please call me at 360-999-9590.

Sincerely,

Cam Penner-Ash, LG
Cleanup Project Manager
