Subject: RE: Expedited VCP Quarterly Progress Reports Due March 10, 2023
Date: Monday, March 6, 2023 9:59:36 AM

Hi Frank,

Please see responses in **red** below for the West Coast Self-Storage Site and let me know if you have any questions.

Thanks,
Marissa

Subject: Expedited VCP Quarterly Progress Reports Due March 10, 2023

CAUTION: External Email

Dear Expedited VCP Site Representative,

Per our guidance for the expedited VCP process, quarterly progress reports are due on March 10, 2022.

If you believe you have received this email mistakenly, please let me know and I will remove you from this email list.

This progress report can be made via email, and should include responses to each of the following from our guidance. We recommend that you simply insert your response below each of the following bullets in your email reply.

- Description and status of Site characterization or cleanup work (completed during past quarter or ongoing work). **None ongoing or conducted last quarter**
- A list of pending opinion requests to Ecology and expected date for next request for Ecology opinion. **Independent Cleanup Action Report (ICAR) and Supplemental Tables and Figures were submitted with requests for Ecology opinions**
- Summary of dates and titles of documents submitted to Ecology for review in the last quarter. **Supplemental Tables and Figures submitted on 1/6/23 and 2/8/23**
- Type of documents and opinion requests planned for submittal to Ecology during the next quarter. **Groundwater monitoring report summarizing the November 2022 sampling event to be submitted in the next quarter**
- Any updates to the project schedule showing the previously mentioned activities and

milestones. N/A

- A description of schedule delays or changes from the prior quarter and reasons for those changes. Groundwater monitoring report summarizing the November 2022 sampling event was anticipated to be submitted last quarter, but as the data was submitted to Ecology as part of the Supplemental Package (in data tables, figures, and lab reports), we prioritized submitting the Supplemental Package instead.
- Changes in key project team personnel. N/A
- Anticipated changes at the Site, such as property ownership, changes to potential future use, new or obsolete access restrictions, or anything that could affect the cleanup. South parcel planned for redevelopment (expansion of self-storage building) in April 2023.

Hard Copy Plans and Reports

Also, I am using this email to notify you of a change within the Expedited VCP Process. Ecology Toxics Cleanup Program (TCP) records personnel and management have informed me that we must have hard copy site records. We have been trying to push for electronic records only within this process, but this change takes time. For **final** plans and reports produced now and into the future (until notified otherwise), please mail **one** hard copy to:

**Expedited VCP c/o Treasure Mitchell
Department of Ecology - Toxics Cleanup Program
Toxics Cleanup Program HQ
Department of Ecology
PO Box 47600
Olympia, WA 98504-7600**

Please continue sending draft documents in electronic format only. If you have any question as to whether we need a hard copy or not, don't hesitate to ask me, preferably via email.

Thanks, Frank
