Re: Warden City Water Supply Wells No. 4 and 5, CSID No. 1618, Replacement
Groundwater Monitoring Wells Installation and Monitoring Workplan

Dear Molly Dimick:

The Department of Ecology (Ecology) has reviewed the revised workplan dated March 2023 for the installation and monitoring of Site replacement groundwater monitoring wells. These wells replace former Site groundwater monitoring wells that had to be removed during the excavation and treatment of on-Site soils contaminated with ethylene dibromide (EDB). Ecology has no further comments on the revised workplan and concurs with the proposed procedures set forth in the revised workplan.

If you have any questions, please contact me at tel. (509) 385-8380 or e-mail christer.loftenius@ecy.wa.gov.

Sincerely,

Christer Loftenius
Toxics Cleanup Program
Site Manager
