ENVIRONMENTAL SECTION

Dear Mr. Justin;

The West Seattle Branch of the YMCA of Greater Seattle is planning a new facility to be located on the property owned by this branch and located near the existing facility. The property consists of all but the south-west corner lot of the block bounded by Oregon Street to the north, Snoqualmie Street to the south, 37th Ave. S.W. to the west and 36th S.W. to the east.

The property was purchased several years ago in anticipation of replacing the existing facility which was converted from an old dairy and is now handicapped by physical problems too numerous to list.

The tentative space budget calls for approximately 65,000 sq. ft. of floor area consisting of gymnasiums, swimming pools, handball courts, meeting rooms, conditioning areas, weight room, saunas, locker and shower rooms, craft and game rooms and indoor track with the usual ancillary spaces, such as offices, etc..

Since the programmed space of 65,000 sq.ft. is near the total area of our new site, we feel that the parking requirement for this facility may be difficult to provide for on this site, even using multiple stories with parking under the building. Our building committee has investigated the availability of adjacent property to expand the site with little success.

We are, therefore, writing this letter to ask if you would be available to meet with the members of our building committee to review the zoning code and help advise us in interpreting the parking requirements as stated therein and possibly discuss our parking alternatives.

We are at the stage in our planning where this question is becoming critical, so we would appreciate a response at your earliest convenience.

Sincerely yours,

Dr. Al Watts

Dr. Al Watts
Chairman, Building Committee

EXECUTIVE SUMMARY

DESCRIPTION

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1920 through 2017. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 660 feet of the target property.

A summary of the information obtained is provided in the text of this report.

RECORD SOURCES

EDR's Digital Archive combines historical directory listings from sources such as Cole Information and Dun & Bradstreet. These standard sources of property information complement and enhance each other to provide a more comprehensive report.

EDR is licensed to reproduce certain City Directory works by the copyright holders of those works. The purchaser of this EDR City Directory Report may include it in report(s) delivered to a customer. Reproduction of City Directories without permission of the publisher or licensed vendor may be a violation of copyright.
