Dear Amy Sikora:

Thank you for submitting the Compliance Monitoring Plan (plan) for review to the Department of Ecology (Ecology).¹ The plan was revised in response to Ecology's comments.² Ecology has no further comments on the plan. **Therefore, please consider the plan to be approved.**

As stated in the referenced email and as discussed during our meeting on February 22, 2023, if DNR decides to do more soil characterization under the slab of the warehouse building then we will hold off on revising the environmental covenant (EC) and will leave the existing EC in place until the sample results have been reviewed. Then we will mutually decide if it is appropriate to move forward with a new EC. **Please let us know by July 30, 2023, if you will be submitting a sub-slab soil characterization work plan for Ecology review or if the new revised draft EC will be finalized for signature and recording.**
