

4. Briefly describe the environmental remedial action(s) to be taken.

Assess subsurface soil conditions and remediate pesticide-impacted soil if necessary. Remove and dispose of residual chemicals (fertilizers and pesticides) from the surfaces of the floors and walls, and from the insides of the walls of a warehouse building, prior to remodeling.

Under penalty of perjury under the laws of the State of Washington and other penalties prescribed by law, I certify that the foregoing information is true and correct.
