Dear Ben Lane:

On December 13<sup>th</sup>, 2023, the Department of Ecology (Ecology) sent you written notice of our final determination that Eastside Fire & Rescue (EFR) is a potentially liable person (PLP) for a release of hazardous substances at the Memorial Field facility (Site).

Upon further review of information available at this time, Ecology is withdrawing that determination and is not making a final determination that EFR is a PLP for a release of hazardous substances at the Site. This action does not preclude Ecology from later establishing that EFR is a PLP should additional information be received that establishes credible evidence of liability.

We thank you for your cooperation in this matter. If you have any further information about the release or questions about this notice, please contact the cleanup project manager for this Site, Brett Carp by phone at (206) 594-0094 or by email at [brett.carp@ecy.wa.gov](mailto:brett.carp@ecy.wa.gov).

Sincerely,

Kim Wooten
