Re: Final Determination of Liability for Release of Hazardous Substances at the following Contaminated Site:

- **Site Name:** COSMO SPECIALTY FIBERS
- **Site Address:** 1701 FIRST STREET, COSMOPOLIS, WA 98537
- **Cleanup Site ID:** 2375
- **Facility/Site ID:** 32

Dear Dale Wonn:

On August 1, 2023, the Department of Ecology (Ecology) sent you written notice of our preliminary determination that Weyerhaeuser Company (Weyerhaeuser) is a potentially liable persons (PLP) for a release of hazardous substances at the Cosmo Specialty Fibers mill (Site). On August 31, 2023, the 30-day comment period on our preliminary determination expired.

On September 11, 2023, Ecology received your written comments, which were dated August 31, and postmarked September 1, 2023, accepting your status as PLP and noting your position with respect to the current owner, Cosmo Specialty Fibers. You also noted that due to restructuring that your subsidiary, Weyerhaeuser NR Company, will be the contact regarding the cleanup. Please forward to Ecology contact information for Weyerhaeuser NR Company for future correspondence.

Based on available information, Ecology finds that credible evidence exists that Weyerhaeuser is liable for a release of hazardous substances at the Site. On the basis of this finding, Ecology has determined that Weyerhaeuser is a PLP with regard to the Site.

The purpose of the Model Toxics Control Act (MTCA) is to identify, investigate, and clean up facilities where hazardous substances have been released. Liability for environmental contamination under MTCA is strict, joint and several (RCW 70A.305.040(2)). Ecology ensures that contaminated sites are investigated and cleaned up to the standards set forth in the MTCA statute and regulations. Ecology has determined that it is in the public interest for remedial actions to take

place at this Site. Ecology will contact you regarding the actions necessary for Weyerhaeuser to bring about the prompt and thorough cleanup of hazardous substances at this Site. Failure to cooperate with Ecology or comply with MTCA in this matter will result in Ecology employing enforcement tools as it deems necessary and appropriate. This includes, but is not limited to, the issuance of an administrative order. Failure to comply with such an order may result in a fine of up to \$25,000 per day and liability for up to three times the costs incurred by the state (RCW 70A.305.050(1)).

Your rights and responsibilities as a PLP are outlined in Chapter 70A.305 RCW, and Chapters 173-340 and 173-204 WAC. Ecology's cleanup project manager for the Site, Ha Tran, will contact you with information about how Ecology intends to proceed with the cleanup.

If you have any questions regarding this notice, please contact Ha Tran at (360) 790-6272 or ha.tran@ecy.wa.gov.

Sincerely,

James DeMay
